Entered as second class matter at the postoffice at Edgefield, S. C.

No communications will be published unless accompanied by the writer's name.

Cards of Thanks, Obituaries, Resolutions and Political Notices published at advertising rates.

Wednesday, September 26

A Pierce-Arrow car makes Cupid's darts more effective.

Eat your hams every-day and save the bacon for company.

A wagon load of cotton will 'most buy a wagon load of Fords.

Nobody can blame a true-blue college boy for refusing to study German.

Let us hope that 1917 taxes will not keep pace with other advancing prices, expenses, et cetera.

Even if cotton is bringing aeroplane prices, all-cotton farming will never lead to independence.

Did you believe you would ever see the day when sugar-cured hams would sell for less than dry salt sides?

The government is doing its utmost to make camp life safe, morally, for the young men of the country.

Sweet potato crop largest in history, says a headline. Next in order will be a report on the 'possum crop.

In the second Liberty Loan, certificates as low as \$5 will be issued, which will give the newspaper man a chance.

Apart from affording some sort of mental gymnastics, the study of the present geography of Europe is of but little value.

Let us give thanks daily that there is only one Watson, one LaFollette and one Bleese to sow seeds of discord and disloyalty to the government.

As some of the football stars are now enlisted under the Stars and Stripes, there will be less interest in this rough-and-tumble sport this season than usual.

According to Madame Rumor, there will be more than a score of applicants for the Edgefield postoffice. A lifetime job at a good salary is worth working for.

Peace terms "Made in Germany" should be viewed with the gravest suspicion. Times without number those in authority in Germany have proven themselves unreliable and untruthful.

A private at Camp Hancock was handed a commission Monday as first lieutenant. There is always promotion awaiting the fellow who makes good. But promotion must always be merited before it is received.

Colonel Roosevelt hit the nail squarely on the head when he said in a speech in Kansas City Monday: "If we take heed of any peace utterances Germany prepares we will show that we are not prepared yet to go out into the world without a guardian."

Mr. Henry Ford's generosity is said to be equal to his genius, having contributed a half million dollars to the Red Cross the other day. Now if he wants to make an immeasurably larger contribution to the country's economic and financial welfare, let him close his automobile factories until after the war.

After seeing the impending fate of the Kaiser, the impeachment of Governor Ferguson of Texas and the issuing of a warrant for Senator LaFollette, one is constrained to believe that occupying a niche "far from the madding crowd's ignoble strife" is preferable to the maelstrom of politics.

Better Than Material Prosperity. Material prosperity is allright, but better than bursting barns is the overflowing condition of the schools and colleges of the State. The making of high-minded, right-thinking, God-fearing men and women means more to the welfare of society and the future greatness of South Carolina than the making of money. Seek first to give your children trained intellects and cultivated hearts and if they are made of the right fibre they will amass reasonable wealth. Without these two essential qualifications, trained intellect and cultured heart, whatever of this world's goods you leave them may prove to be a curse rather than a blessing. Let us rejoice, then, more over the evidences that the fathers and mothers of South Carolina are ambitious along right lines for their children than over the flood-tide of prosperity that is enveloping our State. That there is something better than wealth, hundreds and thousands of South Carolina parents have discerned.

Inspire Your Children.

The season for the opening of school is here, and the session which lies before us, from the standpoint of real profit to the children, rests largely, more largely, with parents than with teachers. It is an erroneous idea for a parent to say, "Well, I pay the teacher to teach my children. I haven't time to bother with their studies." The parents have their duties and the teachers theirs. Both entirely different, yet equally as essential, and if properly co-ordinated, or adjusted one to the other, the child will be encouraged and inspired from day-to-day, looking upon school work as a pleasure rather than a drudgery. Parents should not only be loyal themselves to the teacher but should impress upon their children to be loyal and impress them that the teacher is their friend and not an avowed enemy. When a cordial, kindly relationship exists between pupil and teacher, instead of daily friction and unpleasantness, the child not only makes greater progress in class-room work but learns to love the school and its atmosphere. The existence of this mental attitude makes it possible for the teacher to inspire a child and arouse latent forces which will raise that child above the plane of "dumb driven cattle." It is more important that children be inspired with a desire to learn than it is that facts and figures from text-books be crammed into their brain cells. This intellectual awakening during the period of grammar school work determines the character of work that will be done in the high school and subsequently in the college course. Many parents who are financially able to give their children a collegiate education deplore the fact, when the children attain the college age, that they will not avail themselves of the opportunity. It is now too late to inspire them with a desire for intellectual culture. The time to do this is when a boy is in knee-pants, at which age he either forms a taste or distaste for books. Probably your boy is now facing the two ways that lie out before him. One leads to college and higher education and the other to stopping school, entering a premature business or doing nothing career. Which road would you have your boy travel? His fate or fortune rests largely with father and mother.

Encourage, inspire him before it is too late. This the teacher can not do alone. The Fifth Avenue Bank, New York, has adopted the following business rules for its employees: 1. You must not drink any intoxicants with meals in public restaurants. 2. You must not enter any saloon. 3. You must not enter any pool-room. 4. You must not enter any bucket shop. 5. You must not enter any gambling houses. 6. You must not visit any race track. 7. You must not speculate. 8. You must not attend prize fights. 9. You must not have vicious companions.

- 6. You must not visit any race track.
- 7. You must not speculate.
- 8. You must not attend prize fights.
- 9. You must not have vicious companions.

Auto-Intoxication Causes Death

Do you know why you have sick headache, diabetes, neuralgia, rheumatism and liver or kidney troubles? It's because you are being poisoned by products of your own body. Your organs of elimination are not working properly. Waste material that should be thrown out is being retained to poison and intoxicate your system. That could not happen if the bowels were kept open with Granger Liver Regulator. This splendid preparation is purely vegetable and non-alcoholic. Demand Granger Liver Regulator at your drug store—25c a box—and take no other. There is nothing "just as good."

ELECTRIC BITTERS THE BEST FOR BILIOUSNESS AND KIDNEYS

Happiest Man In Columbia, He Says.

HEALTH RESTORED BY VITONA AFTER ALL OTHER MEDICINES FAILED—FEELS YOUNG AGAIN.

"I am the happiest man in Columbia today and I want to tell the public it's all because of what this Vitona has done for me," said John Wesley Gay. Mr. Gay lives at 1229 Laurel Street, and is a well known coach carpenter for the Southern Railway.

"I have never spent money to better advantage in my life than when I bought Vitona," he continued, "for it overcame troubles that had been pulling me down for the past three or four years. I had serious kidney trouble which brought on rheumatism and I had an awful time of it. My stomach was also in bad condition. I had no appetite, was nervous and couldn't sleep well. I had pains in my side, shoulders and neck, and my condition became so bad it was all I could do to stay on my job. I tried all kinds of medicines and was under treatment of doctors, but nothing seemed to reach my case and I kept getting worse.

"I heard about Vitona and decided to try it, but I had very little faith in it doing me any good. I began to feel an improvement before half the bottle was finished and I now feel like a different man. The rheumatism has disappeared, the pains have left my sides and neck and I feel like I did when a young man. My stomach is in good condition and my kidneys no longer bother me. I'm not nervous like I was, my sleep is sound and restful and my appetite is good. Vitona is the finest thing of its kind I've ever seen and I am more than delighted with the results. I think everybody suffering with kidney trouble and rheumatism should know this wonderful remedy."

Vitona is sold in Edgefield by Penn & Holstein and in Trenton by G. W. Wise.

Tanlac's Success Due to Real Merit.

HOT AIR WILL PUT A BALLOON UP BUT WON'T KEEP IT THERE—IT PAYS TO ADVERTISE.

BUT SUCCESS IS IMPOSSIBLE UNLESS THERE IS A DOLLAR-FOR-DOLLAR VALUE BEHIND THE ARTICLE ADVERTISED.

This is an age of advertising, and everyone is familiar with the popular saying, "It pays to advertise." Advertising is a business force. So potent is the charm cast by its spell it has been known to perform marvelous feats and to accomplish phenomenal results. It cannot be truly said, however, that everyone who advertises succeeds, for unless full value underlays the article advertised, the advertising would ultimately fall of its own weight. In this connection we must not forget the words of the immortal Lincoln, who said: "You can fool some of the people all the time; you can fool all of the people some of the time, but you cannot fool all of the people all of the time." So if there is not behind every advertisement a dollars and cents value to the article advertised, no amount of advertising will stimulate the sale on such an article beyond a certain point. This applies to every line of business, and the modern business man or firm can only succeed through honest advertising and fair dealing.

Hot air will put up a balloon but it won't keep it there. So when the manufacturers of Tanlac placed it on the market something over 2 years ago, they did so with the firm conviction that they were offering to the people the best and purest product of its kind on the American market to-day. They did not hesitate, therefore, to expend vast sums for advertising, because they knew that the more the people heard about Tanlac the more they would buy it. The success the preparation achieved was immediate, and people everywhere were quick to recognize its genuine merit.

Tanlac has never been advertised as a cure-all or that it would perform unheard-of wonders. The advertising has been clean, straightforward and constructive. Actual facts and figures have been stated and stated in a businesslike way in a manner that has commanded confidence in the conservative claims set forth. Underlying these claims there has been real value, not from a dollars and cents point alone, but from health as well. And that's

FALL

Parksville, Robertson & Company. Plum Branch, J W Bracknell & Son. Plum Branch, R F D No 2, E P Winn & Bro. Trenton, G W Wise.

The Thornwell Orphanage.

The Thornwell Orphanage located at Clinton, S. C., is the name of the Home for Orphans under the care of the Presbyterian churches in South Carolina, Georgia and Florida. It has thirty-five teachers and matrons for its twenty-four departments and cottage homes, in which are sheltered above three hundred orphans. The Home receives children from any part of the Union, and from any denomination. During July and August eighty-two applications were received, of whom only nineteen could be accepted. Above two hundred are on the waiting list. These are all supported by the generosity of the Presbyterian public. We hope the friends of the school will do as all the other Orphan Homes are expecting, observe Orphan Work Day on the 13th of October. The observance consists in sending your day's wages for that day to the Institution you favor. The Thornwell Home has filled up every vacancy, notwithstanding the War and high prices and will shortly erect another cottage. The pupils of the Home have the best of schooling and manual training and are very carefully taught. None but orphans are received. Contributions should be sent to Rev. J. B. Branch Clinton, S. C. The life of the Institution has been forty-two years in which time more than a thousand boys and girls have been made into useful and educated citizens.
