## LOCAL AND PERSONAL.

Miss Janie Hunter of Ora is visiting her sister, Mrs. L. T. May.

Miss Jennie Ruth Able of Leesville is here visiting Mrs. A. L. Gunter.

S. McG. Simkins went over to Aiken on professional business Monday.

Col. F. N. K. Bailey and Mrs. Bailey are spending the winter in Florida.

Mrs. B. B. Jones and Miss Nell Jones have been spending the past week in Beaufort.

District Attorney J. Wm. Thurmond is in Greenwood this week conducting court.

Have you made your tax returns? Only about two weeks remain before the time expires.

Mrs. Richard Cain of Wedgefield, Sumter county, is here visiting her daughter, Mrs. E. S. Rives.

Mrs. A. R. Brown of Columbia, the wife of Engineer Brown, spent the week end with Mrs. J. L. Hart.

Mrs. Hal Beman of Augusta has been spending the past week here with her parents, Mr. and Mrs. C. H. Key.

Mrs. Walter McDonald of Augusta is spending this week here with her mother, Mrs. Agatha A. Woodson.

Miss Gladys Padgett is visiting friends in Spartanburg and also her sister, Mrs. Norwood Cleveland, in Greenville.

Sergt. Flahiff is a hero of the trenches. Hear him in the opera house Friday night of next week—the next lyceum entertainment.

The U. D. C. will meet at the Red Cross rooms Thursday afternoon, February 15, at 3:30 o'clock. The members are requested to bring their dues.

Mr. A. S. Tompkins received a telegram Tuesday from his son, Gus Tompkins, stating that he was then en route to a Northern port to embark for Europe.

Miss Lillian Smith has arrived from Columbia to spend several days at home, her school being temporarily closed on account of the quarantine against meningitis.

There will be a box party at the residence of Mr. M. A. Watson on Friday night, February 15, for the benefit of the Waycross school. The public is cordially invited.

Mr. E. S. Rives is now in New York making large purchases of spring merchandise. He is a buyer of large experience and knows how and where to buy to the best advantage.

A cold church curtails attendance upon public worship. Persons who are seeking an excuse to remain away can easily find an excuse upon this ground—a very good excuse, too.

Farmers are so eager to get their fertilizers under the shelter on the farm that they are not waiting for the roads to dry thoroughly. The public square has scores of guano wagons on it this morning.

The Edgefield teachers have responded to the appeal of President Wilson and Governor Manning and are making a card index of the questionnaires. They have volunteered for this patriotic service.

Mr. Carroll Rainsford who has been making a good record at the Citadel for the past two years spent several days at home last week. He has gone to Annapolis to study for entrance at the Naval Academy.

The coming of Sergt. Flahiff of Canada for the Lyceum entertainment is creating considerable interest. He has been "over the top" in several drives and will give his personal experiences in trench warfare.

Unless the roads improve rapidly fertilizer hauling will be greatly delayed. Every pound of fertilizer should be hauled to the farm as early as possible, giving the stock a rest period before the plowing begins.

Civic League will meet Monday, 11th inst., at four o'clock. Each member is urged to attend, as there is business of importance to attend to. The meeting will be at the home of Mrs. R. G. Shannonhouse.

Let's greet the young Canadian with a large audience Friday night of next week, thus showing our patriotic interest in the cause of the Allies. A small audience will lead him to believe that we are apathetic and lack interest in the war.

On account of the severe weather in December and January, there is more "scattering" cotton in the fields than usual at this season. The prevailing price will cause every pick to be picked as soon as the weather is favorable.

Mrs. C. W. DeLoach now occupies the residence on Columbia street which she recently purchased from Mrs. S. A. Morrall and Mr. and Mrs. P. P. Blalock, Jr., will move into the brick residence near the Methodist church from which Mrs. DeLoach moved.

The lyceum entertainment Friday night of next week will be the most thrilling and most interesting ever given in Edgefield. A brave young Canadian soldier will bring the trench warfare to us. This learning of actual conditions by proxy is the only way that most of us want to learn.

The beautiful sunshine of this morning is infusing new life into everything and everybody. The man who has grown lazy during the long period of hibernation is stretching his limbs and feels the blood circulating again. If this favorable weather continues, there will not only be "something doing" but something done in every line of business.

### False Impression Corrected.

Some persons are under the impression that a registrant who has a wife and children should not be given deferred classification by a local board if a relative will contribute to the support of the dependents should the registrant be drafted for military service. The regulations plainly state that case of dependent wife and children support from other sources should NOT be considered.

### Classification Completed.

The local board has completed the classification of all questionnaires that have been returned. Some of the colored registrants who have not yet received questionnaires are being located every day. The board appreciates the co-operation which has been given by a number of citizens over the county in locating registrants who seldom receive mail, and for that reason cannot be located by the mail carriers. Up to this time, not including the questionnaires that have not been delivered to registrants, the board has placed about 490 registrants in class one, this being about 30 per cent. These men will be examined next week. Examinations were commenced last Friday, but owing to the issuing of new regulations for the physical examination, General Crowder telegraphed the local boards to hold up on the examinations until the new regulations were received. The men who were notified to appear for examination last Monday will report next Monday; those who were notified to report to-day will report next Wednesday, and those who have been notified to report Friday of this week for examination will report Friday of next week. Other registrants will be ordered to report Tuesday, Thursday and Saturday of next week also, which will enable the board to examine all of the men in Class I next week.

The remainder of the present quota will be ordered out during the five days following February 23. It has not been announced what day Edgefield will mobilize men for Camp Jackson. This county is yet due 102 colored men on its first quota. The local board had this number of men ready for mobilization in October, but they were never ordered out. The men will receive notice what day to report for mobilization.

One solid car of buggies just unloaded and two more on the road from the best factories.

## TELLS HOW SHE DROVE AWAY DIGESTION TROUBLE.

Prominent Veterinarian's Wife Tells of Long Suffering, Despaired of Finding a Cure.

TOOK ACID IRON MINERAL AND IS PRAISING IT NOW.

"I had almost despaired of ever being relieved of my indigestion trouble," writes still another lady who at last found relief, Mrs. Lula Lee Morris, of Elizabeth City, wife of a well known veterinarian there.

Thousands of women drag about listless, lacking life and vitality, all because their digestion isn't good and they get no strength from the food and things they eat. To gain relief, read what she says.

"I despaired of being relieved. I suffered a long time, but after hearing so many words of praise favoring Acid Iron Mineral I started taking it and each bottle I took improved my condition until I feel perfectly allright now and go about my work with so much more pleasure. I was truly miserable before I took it, but now I recommend it to everybody as it will do so much good for those troubled with ailments it is intended to cure."

The above tribute to this remarkable highly concentrated product of a really wonderful mineral deposit located in Mississippi and sold under the thirty year old A-I-M trade mark proves that people troubled with that draggy, worn, weak rundown feeling due to stomach digestion, blood and uric acid troubles.

Thousands of people know how it drags them down to feel half sick the whole day long and their praise of Acid Iron Mineral proves it builds folks up rapidly again. A dollar bottle can be procured at drug stores.

## 30 CENT COTTON

THE demand for cotton is urgent. What price it may eventually bring is problematical. But it is vitally necessary that every grower make an extra effort to increase production—it means dollars to you. For many years, Planters Fertilizer has been used with remarkable success throughout the South. It enriches the soil, furnishes the plant with soluble and available food until maturity and improves the quality and quantity of the crop. If you are getting less than one to two bales to the acre—try Planters—see how

## PLANTERS FERTILIZER DOUBLES YOUR YIELD

Planters Fertilizer has proven its worth, over and over again. You cannot afford to experiment with unknown, untried brands, when you can get the genuine, with the Giant Lizard Trade-Mark, stamped on each bag. See our agent in your town for free advice, information and prices—or write us direct. But don't delay—do it at once. For the present uncertainty of deliveries—due to the heavy demand upon freight and transportation facilities makes early ordering imperative.
