# Grand Spring OPENING

We are glad to announce to the public that our spring stock is now complete, and we are ready to supply your wants from one of the largest and best selected stocks ever shown around here before.

Since 1917 we have been enlarging our stock every year as our business was growing to more than double. To-day we are doing a larger business in this line than any other store around here. Our stock at present amounts to \$70,000 worth of brand new merchandise, and every dollar's worth of goods that we have on hand is worth between a dollar forty and a dollar fifty on the dollar according to to-day's prices, and we are willing to share the profits with our customers.

Goods have been going up since last fall and they are still going up. Cotton goods to-day sell in most of the stores as high as silk use to sell. We buy our goods direct from the mills, placing our orders ten and twelve months ahead, with the prices guaranteed: If the prices go up we don't have to pay any more, and if the prices go down we get the benefit. So we are always protected against high prices, and therefore we can protect you, as we always believe in sharing the profits with our customers.

We are going to offer you on our bargain counters new spring merchandise for less than merchants can buy them to-day at wholesale.

Now just to give us an opportunity to show you our large spring stock we will have the prices reduced throughout our entire store for our—
