# A big-scale road test on 3,200 tubes

*How Firestone puts the miles in — and then proves it — not at YOUR expense.*

No other tubes in the world are road tested on so big a scale as Firestones. The Yellow Cab Company of Chicago uses Firestone Tubes exclusively on its 800 taxi cabs. The service of these tubes is checked constantly — improvements and developments are arrived at.

By close watching of a large number of tubes in service — not confined to isolated instances, the conclusions are accurate and definite.

Firestone puts the best in materials into tubes by establishing purchasing experts at Singapore, center of the world's rubber market. Firestone puts the best in workmanship into tubes by organizing the crack manufacturing organization of the industry on a profit-sharing basis.

And then subjects the finished product to this big-scale road test — in order to get you more for your tube money and more miles out of your tires. And yet Firestone Tubes cost no more than the ordinary kind.

**EVERY** dollar that you spend foolishly, every proportionate amount of money that you earn that it would be possible to save and do not, is only money that you have to work for again. On the other hand every dollar you put in the bank is money that is going to constantly work for you. Which is the best; money always working for you, or you always working for your money. Come in and start that bank account. Don't put it off another day.
