### Death of Little Ruby Corley.

God needed one more to join his Angel band, so on Monday August the 30, he took little Ruby, the five year old daughter of Mr. and Mrs. Ernest M. Corley.

It is sad Oh! so sad to think that little Ruby is gone, but she heard a voice that we could not hear and she saw beconing hands that we could not see.

God has taken in his arms another angel to call his own though she lived five years to gladden the hearts of her mother, father, grandpaents, and all who knew her.

There is a vacancy that never more can be filled with gay laughter and patter of each little footstep that filled

the hearts of friends and relatives. We all suffer the loss of her on earth, but in our hearts and minds she is still with us.

Little Ruby suffered five long months never getting the least impatient; while in the hospital she was a pet among the doctors and nurses. With her cheerful little smile she underwent a serious operation, that only relieved her for a short while.

She was especially fond of her little play mates, always happy when she could run jump and play as they did. They all missed her sweet presence after she was taken ill and tried to brighten her little life by bringing beautiful flowers to her bedside.

Four little friends acted as pallbearers—Eugene Rearden, Jessie Griffis, Frank Watson, and Robert Corley Rearden.

### Chronic Catarrh.

Our manner of living makes us very susceptible to colds and a succession of colds causes chronic catarrh a loathsome disease which it is estimated that ninety-five per cent of our adult population are afflicted. If you would avoid chronic catarrh you must avoid colds or having contracted a cold getrid of it as quickly as possible. Chamberlain's Cough Remedy is highly recommended as a cure for colds and can be depended upon.
