INTERNATIONAL TRACTORS

READY FOR DELIVERY

Edgefield farmers are face to face with entirely new conditions—new labor conditions and enforced crop diversification. In order to cope with the new situation new machinery, labor-saving machinery, must be used. Those who have used a tractor on the farm declare that nothing can take its place. You can break your ground and harrow it with one operation.

You can saw wood or operate a saw mill with an 8-16 International Tractor

Ask Edgefield farmers who are using them. They burn kerosene instead of gasoline, making their operation cheaper.

We also have Disc Plows, Harrows and Grain Drills

Just the implements that are needed for putting in a large grain crop.

You do not have to wait weeks after placing your order for an International Tractors. We have the 8-16 tractors now ready for delivery. Come in and let us talk it over with you.
