

NEWBERRY TO EDGEFIELD

When one thinks of going to Edgefield from Newberry about the first thing that comes to his mind, that is those who have some recollection of the effort to build a railroad between the two cities, is the need of just such a road as has been talked about and graded and for which taxes were paid for so many years, and yet the grading was done so many years ago that the young folk of this day, when they see the evidence of the cut or the embankment, wonder why it is there. Tall pines have grown all over many of the graded places, and that railroad seems but a memory, and to many it is not even that. And yet there is great need for a railroad across the state from north to south. All the roads very nearly parallel each other.

And this recalls to mind the time that we built that narrow gauge road from Augusta to Newberry and on to Union and Blacksburg. It was to be an extension of the Augusta and Sandersville narrow gauge railroad which was at that time operating between Augusta and Sandersville. A man by the name of Mitchell was the president. Mr. Jas. Y. Culbreath and Mr. Robert McCaughrin, and in fact all of Newberry were very much interested in the project. Prosperity wanted the road to come that way and the Moseley brothers and the Wheelers and Mr. L. S. Bowers and Mr. Henry Boozer and all the rest were interested. President Mitchell came over to Newberry and we had a big meeting in the court house. I will never forget that meeting. The building was crowded with interested citizens. Mr. Mitchell was a good talker, and he made a speech, and several others spoke, of course Mr. Culbreath and Col. Geo. Johnstone and Judge Pope and Col. O. L. Schumpert and others and you know Newberry has always had good speakers, and the meeting was very enthusiastic and we were going to have a railroad from Newberry to Augusta right now. Just before the meeting adjourned Mr. Thomas S. Moorman who was then practicing law at Newberry arose and offered to have a stipulation put in the bonds requiring that the road be put in operation to Newberry before our bonds were delivered. He was almost hissed out of the court house, the very idea of doubting the good faith and the ability of these men who were building the road, and President Mitchell, or even suggesting that the thing would not be done was preposterous and the suggestion to put such an amendment or proviso was in itself casting a doubt over the enterprise, or that is the way it was construed, and the meeting would not hear of it, because it would possibly delay the building, and the bonds were to be delivered as soon as the road was graded through any township, and so it was done. Mr. Moorman pleaded for his proviso in the bonds but the meeting would have none of it, and so he stood alone. And subsequent events have proved that he was right. If his motion had prevailed we would either have the road to Newberry or we would have been saved thousands of dollars. And we have no road yet. That was a good many years ago. I can't remember dates.

It is not so far to Edgefield, only about forty miles direct way, but to get there by train you have to go around by Columbia. At the time we were building that railroad Edgefield joined Newberry at Saluda river. And in this way if we had good dirt roads, it would not be such an undertaking to make the trip. It is only forty-five miles by Saluda and Johnston, and if you go down by Wards it is only about fifty miles. With good Studebaker cars that would not be much of a trip, if we had any sort of roads. But with our roads it is a long way, and if you get stuck it is still further.

I had a little matter of business at Edgefield, which possibly could have been attended to just as well by correspondence, but somehow I just felt like I would like to take a trip across country to Edgefield and I was talking one day to Mr. Ernest Summer and he said he would be glad to take the trip himself some day when the weather was good. I needed a day off anyway, so we decided to go over to Edgefield on Tuesday. Mr. J. Hack Summer and Mr. Chas. A. Bowman went along, and so far as I recall, neither one had ever been to Edgefield. I know it was the first trip for Mr. J. H. Summer. Mr. Ernest Summer drove his big Studebaker and we left Newberry about 8 o'clock on Tuesday. We decided that the best road was by Deadfall and the upper steel bridge and through the fine section of Saluda county where the Colemans live, and that possibly is the nearest road. The road is not so

Ode to the Onion.

It seems that for years
The onion as a subject,
In spite of its many tears,
Has suffered much neglect.

From this we should infer
That onions cut no dash,
For poets and others did prefer
Just to use them in their hash.

Let me whisper in your ears,
They are not only good to "chaw,"
But the very thing to force tears
At the grave of your mother-in-law

If onions was the diet of my room-mate,
And I couldn't otherwise stop him,
Up in the air him I'd take
A thousand miles and drop him.

And when an onion's roasted
Its fine for frosted toes,
But just to keep you posted
You had better hold your nose.

They're fine when nicely boiled,
And basted over with butter;
But onions in butter make you recoil
With words not fit to utter.

Their strength is something fearful
When compared with a beet,
And they make your eyes tearful
When you prepare them to eat.

Their relationship with garlic
Must be a brother-in-law too,
But if this was made public
We would get them in a stew.

Now here's health to Mr. Onion,
And strength and odor too,
I don't need you for a companion,
But my hat off to you.

W. S. G. HEATH.

Effects of Constipation.

Constipation causes a stoppage of the sewerage system of the body. The poisonous refuse matter that should be carried away is retained in the system and often poisons the blood and causes numerous disorders. No one can afford to neglect his bowels. A dose of Chamberlain's Tablets will afford relief. Avoid drastic cathartics as they take too much water out of the system and their use is likely to be followed by constipation.
