

AS THE Edgefield Advertiser

Enters upon its 88th year as a weekly visitor into the homes of Edgefield County, we desire to improve its news service by reporting the news from every section of the county every week. The Advertiser would like to have a live correspondent in every rural community in the county. We will furnish paper and stamped envelopes to persons acting as correspondents and also mail The Advertiser to them. If the news from your community is not already reported for The Advertiser, will you not report it?
