"W. H. H." Bears the Lion in His Den.

We suppose our fluent Mr. Holzhauser thinks he has run us in a hole and pushed the hole in on us, but we trust he will do himself no harm for we are still here.

We have for the past two weeks been endeavoring to draw some conclusions from his last reply in defense of the Alliance. We find that he seems to think that a free and honest discussion of their principles will be mutually beneficial.

He claims that he did not say "that he did not need any advice," yet he made us to understand in his first article that they could get along as well without our suggestions as with them.

One point which our correspondent has, to a certain degree, failed to discuss openly is in reference to the jute trust.

No, of course, we cannot blame the Alliance if they should prefer to use cotton covering for cotton and gumbo, but satisfactory arrangements should have been made with all parties concerned before taking any decisive steps.

Now, in reference to trade houses, we wish to speak a few words and we shall leave the subject for the present. We find from observation that, after making arrangements with certain merchants to supply them, many turn their backs upon their would-be benefactors and therefore tend to break them down in their efforts to do just what the Alliance desires.

Our farmers are booming, and the farmers are booming with it. They are making extensive preparations for this year's crop. Tenant houses are going up, fertilizers have been arranged for, and soon the plow-born, will be as familiar as melodious.

Schools, as you have seen from "Festus," in this part of our county, are numerous and doing well. Mr. J. V. Smith, who attended Newberry college before Christmas, is directing in his way of slipping around every point to which we try to draw him.

Our farmers here are making considerable complaint against some insectivorous intruder upon the privacy of their grain fields. Some fields are almost completely devastated and the general result will be a shortage in the grain crop for this season.

We are now having a rainy weather with some cold. Some are preparing for the coming crop in the shape of breaking land, making compost, &c.

The Cedar Grove congregation have been fortunate in securing services twice a month by their former pastor, Rev. Mr. Lybrand; first and fourth Sundays for the present.

Several cases of la grippe are reported among us, mostly of a mild form, however. No fatalities so far. There is a strong scent of orange blossoms in our very midst. Look for the result in our next.

Meetze & Son still continue the livery and feed stable business at the old stand and furnish best accommodations at moderate charges. Stable your stock with them during court.

Texas Letter.

MR. EDITOR: I left Louisville, S. C., for the Lone Star State on the 14th of January, but did not come straight through. I learned from a friend on the train that Messrs. Hendrix, Corley and Amick were going to start on the night of the 15th and I waited over in Augusta, Ga., for them so as to have company.

I arrived all o k on the morning of the 17th; had a very pleasant trip and saw much fine land. The best land I saw on the way was in Louisiana, along the Mississippi and Red rivers.

The small grain prospect is very discouraging in this section. Insects have almost ruined it in many places. We find many large places in fields where there is not a stalk standing.

I was taken with la grippe the same day that I arrived and was confined to my bed a day or two, but have gotten all o k again. I found my friend, Mr. J. L. Cannon, in good health and getting along nicely.

This is undoubtedly a fine farming and stock country, though cotton was a failure here the last two years on account of heavy rains and worms in the fall. There was an abundance of corn, oats and hay raised.

This town is a cross tie and wood point. There is from five to twenty-five thousand dollars paid out here every month to the tie and wood choppers which makes things lively for several days after pay day as they spend it all here.

I am now overseeing hands hauling ties and wood for a large contractor. J. E. DEXSICK. Emory, Texas, Feb. 7, 1890.

MR. EDITOR: We intended communicating sooner but the matrimonial fever has been raging so extensively that we had to hold our breath, ruminate and exogitate. The fever-seems to be endemic, epidemic, and likewise contagious!

Success, young friends. You have launched your barks upon an unknown sea. Be careful lest you drift. Set your compass right, steer for the proper port, and your voyage of life will be sweet and serene.

Mrs. Pat D. Bickley, whose mind has been unsettled for some time, has been carried to the lunatic asylum in Columbia for treatment. Hope to hear of her speedy recovery.

We are very much pleased to see the favorable prospects of a cotton factory near your town on Twelve Mile creek. We have often thought of the excellent water power of that stream. We hope ere another cotton crop will be raised a factory will be in successful operation. W. J. B. Chapin, S. C. Feb. 7, 1890.

Items by the Way.

MR. EDITOR: It was my pleasure to attend the services at Zion E. L. church on Sunday last. Rev. J. E. Berley preached an excellent sermon from Mark 12:34 to a large congregation. They have a splendid choir at this church with Mr. D. Frank Eiford as leader. This choir will meet next Sunday morning before preaching for exercise.

We understand that Mr. E. L. Wingard is having some trouble with our Sharp man about his papers. Sharpe refuses to sign them and give him the \$40 as all other first grade teachers get. OLD RUFF.

Washington Lett.

[From Our Regular Correspondent.] WASHINGTON, D. C. Feb. 7, 1890.

EX-SPEAKER Carlisle is the hero of the hour in Democratic circles, for the able manner for which he compelled the majority of the House committee on rules to act, reporting the code of rules other than they had intended. The new rules are about as one-sided and unfair to the minority as they could well be, and give Speaker Reed almost as much authority as he has exercised without them. It took ten hours to get a majority vote in their favor from the Republican caucus, and from all accounts the decision was at times extremely bitter. A Democratic caucus also ordered the rules reported, and although they regard them as so many laws, it was decided that if the Republicans would allow a reasonable time for their debate, so that the justice might be shown to the country, no unusual obstacles would be interposed by the Democrats to prevent their adoption by the majority as the only wish to put themselves on record as protesting against the adoption.

Economical men in Congress were surprised to learn of a speech of Senator Morrill, referring to the overcrowded condition of the public buildings in Washington. \$121,700 a year is spent by the Government to rent private buildings. The buildings that are worst of the White House, the Patent Office, Post office and Government Printing office. The last named is in a deplorable condition, looked upon from every standpoint. It is old and its walls are in a dangerous condition; it is unhealthy and is in constant danger from fire. There is a city general agreement that it will be cheaper to erect the necessary buildings than to pay such a large amount for rents. Early action is expected in Congress to relieve this unsatisfactory state of affairs.

The Republicans of the House did not dare to seat Smith, of West Virginia, until they had a legal quorum of their own members present to vote him in. Had they done otherwise the Supreme Court would probably have been given an opportunity to pass on the constitutionality of Mr. Reed's ruling in the matter of a quorum of the House. The fact that the Republicans waited until they had a quorum present to take the decisive vote shows how

little confidence they have in the legal status of Mr. Reed's rulings. A gloom has been spread over the official and social life in Washington owing to the deaths in the cabinet circle. Sunday morning Secretary Blain's daughter died, and Monday morning Secretary Terry's residence was destroyed by fire, the lives of his wife and daughter lost, and himself brought out in an unconscious condition by the firemen. The funeral of Mrs. and Miss Tracy was held in the East room of the White House on Wednesday, and a more affecting scene has never been witnessed here.

Representative Mutchler, of Pennsylvania, who is one of the shrewdest Democrats in the House, says "Reed's rulings have made it a certainty that the Democrats will have a good working majority in the next House. The United States Supreme Court has decided that the test-oath clause in the Constitution of Idaho is Constitutional.

The Blair educational bill, which is beginning to look hoary, was taken up this week in the Senate. It will get through the Senate and it may get through the House, but it is doubtful.

Another related pension office official. First Deputy Commissioner Hiram Smith has gone. When asked for his resignation he sent it in, and thereby secured an extra month's pay, the resignation being accepted to take effect March 5, and he has been given leave of absence to that date. He was appointed last May.

Considerable excitement was created Wednesday by the news that ex-Speaker Randall was much worse. Mr. Randall has been so deeply interested in the fight in the House that he has overlooked his brain thinking of it in order to make suggestions to the Democratic leaders, and it has had a bad effect upon his health.

A bill has been introduced in the Senate to admit New Mexico. An attempt was made to have the Senate pass the bill providing for the organization of the Oklahoma Territory this week, but it failed, not because of opposition, but because precedence was claimed for the Blair educational bill.

The Ohio ballot box forgery investigation was resumed this week. Among the most interesting witnesses were Governor Campbell and Murat Halstead. Ex-Governor Foraker attends every session of the committee, and seems to fully realize the importance of the trial.

A Farmer Who Wants a Subsidy.

"Farmer" in the Columbia Register. I have been planting on my land on the river for many years, but, unfortunately, for the past three years, made complete failures by having my crops destroyed by freshets. I now wish to obtain a subsidy from the Government against all future losses—say thirty or forty dollars per acre on all lands planted.

Can you inform me through your valuable journal how to proceed about the matter? I feel sure that I can get the endorsement of the Columbia Board of Trade and the Charleston Chamber of Commerce and the hearty cooperation of E. M. Brayton and Tom Miller.

If the surplus in the treasury is to be reduced by subsidies on old rotten hulks, then I insist that the farmers should come in for a liberal share of the expenditure of the people's money against any loss they may sustain by freshets, worms, droughts, etc.

Had our fruit merchant, Mr. Cardarilli, have had a subsidy of two cents on bananas, three cents on oranges and in proportion on other fruits, I know that Messrs. Dunn & Co. would not have had to herald to the world Mr. Cardarilli's failure.

Confidence Begot of Success.

So successful has Dr. Pierce's Golden Medical Discovery proved in curing chronic nasal catarrh, bronchial and throat diseases, that its manufacturers now sell it through druggists under a positive guarantee of its benefitting or curing in every case, if given a fair trial, or money paid for it will be refunded. Consumption (which is scrofula of the lungs) if taken in time, is also cured by this wonderful medicine.

For Constipation or Sick Headache, use Dr. Pierce's Pellets; Purely Vegetable. One a dose. Bakers bread, cakes and crackers at the Bazaar. Remember this during court.
