> Strange Revolution in Women's Dress -Will American Ladies Dare Adopt It.

Some predict that the great change in the fashioning of the clothes which are to be worn by women this coming season is the most wonderful victory of the nineteenth century if fashion leaders can be induced to adopt it, and appear just once in public so arrayed. Men will hold their breath in won-

der at the marvelous change it makes in lovely woman. "Few of the fair sex can help being beautiful in these glove-fitting costumes," says a writer in a recent number of The New York and Paris Young Ladies' Fashion Bazar. "This magazine is the only one in Europe or America which makes a specialty of giving those inclined to stoutness an unrivaled appearance of sculpture slimness," said Her Royal Highness the Princess of Wales. Madame Patti has ordered from the Paris house four magnificent costumes, the design of which appear in the April number of the Fashion Bazar-and in this magazine

Mrs. Harrison is greatly fascinated with the exquisite gem, costume No. 4' in the April number. It is expected she will give an order for an exact counterpart of it, the whole front of which will be incrusted with pin-head diamonds. This gown alone will be worth a king's ransom.
