Legislative Work.

The following bills of interest to our readers have been introduced: S. A. Nettles, Prohibition bill as follows:

Section 1. That on and after the first day of May, 1893, it shall be unlawful for any person, firm, association or corporation to manufacture, sell, barter or exchange, or cause to be furnished as a beverage, within this State, any spirituous, malt, vinous, fermented, or other intoxicating liquors, or any compounds or mixtures thereof, by whatsoever name called, which will produce intoxication: Provided, however, it shall not be unlawful for any person to manufacture wine or cider for his own immediate family use and consumption, but not to be furnished to others.

Section 2. Upon conviction before any court of competent jurisdiction of any violation of this Act, the person or persons so convicted shall be fined not less than \$20 nor more than \$100, and be imprisoned in the county jail not less than ten days nor more than thirty days.

Section 3. The taking out of a United States license for the sale or manufacture of any kinds of liquors, shall be deemed prima facie evidence of a violation of this Act sufficient to convict without any other evidence.

Cole L. Bleasie introduced a bill to prohibit the selling or enticing to drink spirituous or malt liquors at and near election days. The punishment is a fine of \$50 to \$100 and imprisonment from twenty to thirty days.

Mr. Bleasie introduced the following prohibition bill:

Section 1. That from and after April 1, 1893, no person shall manufacture for sale, sell, keep for sale, give away or change, barter or dispense any intoxicating liquor, wine, beer or bitters for any purpose whatever, in this State: Provided, that nothing contained in this Act shall prevent ministers from administering wine to communicants.

Section 2. Any person upon conviction of violation of this Act shall be punished by a fine not less than \$500 nor more than \$1,000, or imprisoned in the State Penitentiary for a term of not less than five or more than ten years for each offence.

Section 1. That from and after April 1, 1893, no person shall manufacture for sale, sell, keep for sale, give away or change, barter or dispense any intoxicating liquor, wine, beer or bitters for any purpose whatever, in this State: Provided, that nothing contained in this Act shall prevent ministers from administering wine to communicants.

Section 2. Any person upon conviction of violation of this Act shall be punished by a fine not less than \$500 nor more than \$1,000, or imprisoned in the State Penitentiary for a term of not less than five or more than ten years for each offence.

Section 1. That the question of calling a constitutional convention of the people of South Carolina be submitted to the qualified electors of said State at the next general election, and if a majority of the electors qualified to vote for members of the General Assembly voting on said question vote in favor of such convention, it shall be the duty of the General Assembly to designate the time and place and prescribe the manner of holding said convention.

Section 2. That the question of calling said constitutional convention shall be submitted to said qualified electors in the following manner: Those in favor of a constitutional convention shall deposit a ballot with the following words plainly written or printed thereon, to wit: "Constitutional Convention—Yes." Those opposed to calling said convention shall deposit a ballot with the following words plainly written or printed thereon, to wit: "Constitutional Convention—No."

By S. M. Carroll: To provide for the payment of all persons serving on a Coroner's jury. The pay is fixed at \$1 per day and five cents mileage. Killed.

Section 1. That ten hours shall constitute a day's work, or sixty hours a week's work, in all cotton, woolen, glass and iron manufacturing establishments in the State of South Carolina: Provided, that nothing herein contained shall be construed to prevent any of the employees in the aforesaid manufacturing establishments from engaging to work or working such time in addition, not to exceed one hundred and ten hours per annum, as may be necessary to make up for lost time caused by accidents or other unavoidable circumstances, or to prevent all such employees working such additional time as may be necessary to clean up and

make necessary repairs of changes in the machinery.

Section 2. That the words "manufacturing establishments" when occurring in the first section of this Act shall be construed to mean any buildings in which labor is employed to fabricate or produce goods, including cloths, yarns, wares, merchandise or utensils.

Section 3. provides for the vitiating of all contracts made for more than sixty hours, and any one guilty of violating the Act shall be guilty of a misdemeanor. The fine imposed is \$50, or not more than \$100, half of that amount to go to the informer.

Section 4 says that the law will go into effect on March 1, 1893.

A bill "to establish and maintain a home for ex Confederate soldiers in this State." Referred to Committee on Military.

This bill provides for an appropriation of \$10,000, to be used as early a date as possible for purchasing a site in or near Columbia, and erecting thereon suitable buildings for the purposes of a home for indigent ex-Confederate soldiers and sailors of South Carolina. It calls for an additional appropriation of \$6,000 for the first year's expenses of the home. The bill further provides that the Governor, with the advice and consent of the Senate, shall appoint four persons who, with himself, shall constitute a Board of Visitors, having in charge the conduct of the home. Nothing in the bill is to be construed as interfering with the present system of State pensions.

Senator Efrid introduced a bill "to incorporate the town of Summit, in Lexington County." Referred to Committee on Incorporations.

Bill to abolish the office of Supervisor of Registration and to devolve its duties upon the Auditor, and to fix the salary therefor. Referred to Committee on Judiciary.

To extend the time for the collection of State, county, railroad and other taxes due for the fiscal year commencing November 1, 1891, until the 1st day of January, 1893.

To amend an Act to utilize the labor of jail and municipal convicts.

To appropriate the sum of \$50,000 to complete the erection and equipment of the Clemson Agricultural College.

To repeal an Act entitled "An Act to prevent the use of a free pass, express to telegraph frank on any railroad by any United States Senator or member of Congress from this State or by any member of the General Assembly of this State or by any State or county official or by any member of the court of this State."

To authorize the faculty of County Teachers' Institutes to examine teachers and issue recommendations entitling said teachers to certificates so far as qualification to teach public schools is concerned.

By Mr. Knotts: To incorporate the town of Swansea, in Lexington county.

To prohibit railroads from charging more than 3 cents per mile for carrying passengers. The penalty is a fine of \$100 or three months imprisonment.

An unfavorable report was presented by the Finance Committee upon Senator Efrid's bill to reduce the salaries of State officers, clerks and employees. The report was adopted and the bill accordingly lost.

An ironed prohibition bill of 37 long sections, drawn up by Mr. Childs, under supervision of a temperance committee has been introduced, as well as several other bills of this character. All prohibition bills have been referred to a committee of one member from each county. Representative J. D. Knotts from this county is one of this committee.

The Governor and Lt. Governor were inaugurated to-day at 12 o'clock.

The big Agricultural Hall case will come up in the United States Court next week, in Columbia.

Catarrah, Not Local, But Constitutional.

Dr. Dio Lewis, the eminent Boston physician, in a magazine article says: "A radical error underlies nearly all medical treatment of catarrah. It is not a disease of the man's nose; it is a disease of the man, showing itself in the nose—a Local exhibition of a Constitutional trouble." Therefore, he argues, the use of snuff and other local applications is wrong, and while they seem to give temporary relief, they really do more harm than good. Other leading authorities agree with Dr. Lewis. Hence, the only proper method of cure for catarrah is by taking a constitutional remedy like Hood's Sarsaparilla, which, reaching every part of the body through the blood, does eliminate all impurities and makes the whole man healthier. It removes the cause of the trouble and restores the diseased membrane to proper condition. That this is the practical result is proven by thousands of people who have been cured of catarrah by taking Hood's Sarsaparilla.
