When Kinard, the recognized leading clothier of Columbia, says he has made a reduction in the price of fine and stylish clothing, our people know that he means exactly what he says, nothing more nor nothing less. Leap Year Privileges!

Two charming, beautiful and sweet young maidens, matrimonially inclined, started out recently to captivate bachelors and ensnare widowers by darts from their bright eyes and fascinating ways. After searching the by ways for a victim they at last succeeded in cornering a popular and handsome widower whose reputation for basinfulness is proverbial, and there and then against the single blessedness of the aforesaid widower did lay seige to his heart and offered themselves a willing sacrifice upon the altar of love. The bashful young man blushed as he realized his predicament and how to out his dilemma he knew

Deserving of Success.

The live, progressive and enterprising firm of D. W. Shealy & Co., of Leesville, informs the numerous readers of the Dispatch, in another column, that they have a large, varied and well selected stock of hardware, mill supplies, harness, whips, stoves and tin roofing, which they are offering as cheap as can be purchased in any other market. These gentlemen are hustlers and keeps things moving about them. They buy the best goods in their lines and sell them at the lowest possible figures. Their To the Hon. Ernest Gary, Judge enterprise deserves success and we advise all those who have not yet traded with this firm to do so as it will certainly be to their interest.

The work done by this machine was perfectly satisfactory to those who witnessed it in operation and showed that it will do all and a little more that the agents claim for it. Among other things claimed, Mr. Rice says that it will easily do the work of forty men per day.

Mr. Walter Barre, a member of the County Board of Commissioners and an experienced mechinists, who paid particular attention to all the details, says he tried the machine and is satisfied that it will do all that is claimed for it. The machine works sand hill roads excellently, cleaning ditches, scooping and throwing dirt to the middle of the sides and making a firm and machine cannot be advantageously
