

DELICATE WOMEN
Should Use
BRADFIELD'S
FEMALE
REGULATOR.

IT IS A SUPERB TONIC and exerts a wonderful influence in strengthening her system by driving through the proper channel all impurities. Health and strength are guaranteed to result from its use.

My wife was bedridden for eighteen months after using BRADFIELD'S FEMALE REGULATOR for two months. Besting well—J. M. JOHNSON, Malvern, Ark.
BRADFIELD REGULATOR CO., ATLANTA, GA.
Sold by all Druggists at \$1.00 per bottle.

McKinley's Chief Fainted.

Staunton, Va., April 24.—Gen. Edgar Allen, after making a speech in the convention today fainted from nervous exhaustion due to a long mental and physical strain in working up the McKinley forces. He was taken home to Richmond on the train this afternoon in a semi-conscious condition and tonight is recovering. The plan of organization adopted by the convention insures his remaining as chairman of Richmond city.

Health in Old Age.

An Old Lady Finds the True Source of Vitality.

A Reporter's Interesting Interview With a Lady of Seventy-two Years, Who Tells a Marvelous Story.

From the Union, Fort Jarvis, N. Y.
But a short time ago, in a distant part of the county, we heard of a cure by the use of Dr. Williams' Pink Pills, which seemed almost marvelous, and more recently another substantial evidence of their value reached our ears. Being of an enquiring turn of mind, and wishing to know just how much there was in the story, a reporter was sent to interview the person said to be thus benefited. If the narrative as it had reached our ears was true, it was, only simple justice to let it be known, if it proved untrue, it would be well to know it.

The person alluded to above as having been thus greatly benefited by the use of Pink Pills is Mrs. Jane Hotalen, of Hainesville, N. J., a pleasant hamlet in Sussex county, about fifteen miles from this office. The reporter had no difficulty in finding Mrs. Hotalen. It was nearly noon when we reached her pleasant home, a double house, one part of which is occupied by her son. She is a pleasant faced old lady, looking to be about sixty-five, but is in reality seventy-two years of age. After a few preliminary remarks in explanation of the call, she was asked if she had any objection to giving us the details of the case and how she came to try this now famous remedy.

"Not at all," said she. "If my experience can be of any good to others, I am sure they are welcome to it—it can do me no harm."
"When were you taken sick and what was the nature of the malady?" was asked.

"It was about two years ago. The trouble was rheumatic in character—and it was very painful indeed. The difficulty began in my hip and extended the whole length of the limb, crippling me completely. I suffered intensely from it, and the ordinary treatment gave me not the slightest alleviation. I was under treatment about a month as stated, but grew worse instead of better, and was fast becoming discouraged."

"What brought Pink Pills to your notice?"

"My son called my attention to an article in a paper, in which it was stated that a Mr. Struble, of Branchville, a village in this county had been greatly benefited by their use, and suggested that it would be a good plan to try them. But I was skeptical in regard to their value—in fact, I had no confidence in their efficacy and rather laughed at the suggestion. But the trouble increased and I was badly crippled. A few days later my son was about to visit a neighboring town and suggested again that it might be well to try this much-talked-of remedy, and I consented. He bought me a box of them and I began taking them at once. At the end of a week I noted a marked improvement, and by the time I had taken the first box I was able to walk without a cane. I continued their use, taking several boxes, and am, as you see, in a very comfortable state of health."

"Have you had any return of the trouble?"

"Not as yet, though at my time of life, seventy-two, it would not be surprising if I should have. If it comes, I should at once begin the use of the pills. I suppose I inherit a tendency to troubles of this kind—my mother died from them."

"Did you ever note any ill effects from the use of Pink Pills?"

"None whatever. They never disturbed my stomach in any way or caused me any annoyance. Neither

did I find it necessary to increase the dose, as the directions say may be desirable. I am able, as you see, to attend to my own work."
The reporter thanked Mrs. Hotalen for her courtesy and bade her good day. It is not often that one can witness such a complete recovery from such a pertinacious trouble at such an advanced age, and such instances cannot fail to produce a profound impression. Readers of the Union may rely on the absolute accuracy of all the statements here given—nothing has been exaggerated, nothing withheld.

Dr. Williams' Pink Pills contain, in a condensed form, all the elements necessary to give new life and richness to the blood and restore shattered nerves. They are an unfailing specific for such diseases as locomotor ataxia, partial paralysis, St. Vitis' dance, sciatica, neuralgia, rheumatism, nervous headache, the after effect of the grippe, palpitation of the heart, pale and sallow complexions, all forms of weakness either in male or female, and all diseases resulting from vitiated diseases of the blood. Pink Pills are sold by all dealers, or will be sent post paid on receipt of price, (50 cents a box, or six boxes for \$2.50) by addressing Dr. Williams' Medicine Co., Schenectady, N. Y.

"Kiss the Fool and Let Him Go Home."

The story goes that a certain society young man, noted for his handsome bearing and winning voice, accompanied a young lady to her home, and, as all true lovers do, linger yet a little while at the gate to have a lover's tete-a-tete with his fair companion. The night was beautiful, no one was near to intrude, above all, he loved her! Why shouldn't he kiss her? With true maidenly modesty, she refused. He implored. She still held from him that which would fill his cup of happiness. The request was repeated several times, and so engrossed did the young man become in wooing, he failed to notice the approach of the paternal step. The old gentleman had been there himself and did not care to intrude upon the happiness of the young couple, so stepping behind the convenient rose bush, waited, thinking the young man would soon leave. In this he was mistaken. The lover tarried over the request until the patience of the old gentleman was exhausted. A voice the couple well knew, aroused them from their happiness, in a tone of impatient anger, by saying: "Daughter kiss that fool and let him go home!" It is the report that the young man only hit the ground in high places in his endeavor to comply with the old gentleman's command.

After meals you should have simply a feeling of comfort and satisfaction. You should not feel any special indications that digestion is going on. If you do, you have indigestion, which means not digestion. This may be the beginning of so many dangerous diseases, that it is best to take it in hand at once and treat it with Shaker Digestive Cordial. For you know that indigestion makes poison, which causes pain and sickness. And that Shaker Digestive Cordial helps digestion and cures indigestion. Shaker Digestive Cordial does this by providing the digestive materials in which the sick stomach is wanting. It also tones up and strengthens the digestive organs and makes them perfectly healthy. This is the rationale of its method of cure, as the doctors would say. Sold by druggists, price 10 cents to \$1.00 per bottle.

A Healthy Glow.
Skin smooth, complexion good, looks strong, blood rich—always the case when you use BROWN'S IRON BITTERS.
GUARANTEE—Purchase money refunded should BROWN'S IRON BITTERS, taken as directed, fail to benefit any person suffering from Dyspepsia, Indigestion, Female Weakness, Nervous Debility, Headache or Neuritis.

Chatanooga, Tenn., April 24.—Rev. Albert Diaz, the Baptist missionary at Havana, Cuba, will attend the Southern Baptist convention which will meet at Chattanooga on May 8. He will deliver an address while here on the condition of affairs in Cuba. It is expected that five thousand delegates will attend the convention and Dr. Diaz will be the lion of the delegation.
Fruits, candies of all kinds, cakes and crackers will be found continually throughout the season, at the Bazaar.

THERE IS NO
Preparation that can compare with HILTON'S Life for the Liver and Kidneys, in the relief and cure of Dyspepsia and Indigestion, and all their attending ills, such as sick headache, sour stomach, want of appetite, Habitual Constipation. A few Habits will tell something of its merits. No need of a long continued course before its benefits become apparent.
TRY IT, AND BE CONVINCED.

Convention Facilities.

Novel Scheme for the Republican Convention at St. Louis.

St. Louis, April 22.—When the national Republican convention meets in this city on June 16 to nominate a President and Vice President of the United States the delegates will witness an innovation in the handling of big conventions. It is a scheme proposed by the Bell Telephone Company through its local manager, George F. Durant.

The proposition is something entirely new and original, and although it has not yet gone before the subcommittee having charge of the convention arrangements it is said to be practically assured that it will be adopted. It is to connect the various State delegations with the Speaker's desk by telephone so that the chairman know the name of every man who is recognized, and thus be enabled to announce his name to the convention.

The telephone scheme, it is claimed, will do away with the annoyance and loss time that his so long been a source of worry to the managers of national conventions.

The other arrangements for giving the news to the outside world by telegraph will be the finest and most complete ever attempted at a national convention.
In order to be able to handle the great press of business the Western Union Telegraph Company is stringing six new copper wires from St. Louis to Chicago and four from here to New York. This will give the city the best telegraphic connection with the outside world it has ever had. About fifty loops will be run into the hall. The Postal company is also making preparations for the convention. Three new copper wires are being strung between this city and Chicago and two more from here to New York direct.

Your Boy Wont Live a Month

So Mr. Gilman Brown, of 84 Mills St., South Gardener, Mass., was told by the doctors. His son had Lung trouble, following Typhoid Malaria, and he spent three hundred and seventy-five dollars with doctor, who finally gave him up, saying: "Your boy wont live a month." He tried Dr. Kings New Discovery and a few bottles restored him to health and enabled him to go to work a perfectly well man. He says he owes his present good health to Dr. Kings New Discovery, and knows it to be the best in the world for Lung trouble. Trial bottle free at G. M. Harman's Drug store.

Tribute of Respect

From the Woman's Home and Foreign Missionary Society of St. Michael's church, Lexington county, S. C.

Whereas, God, in his inscrutable wisdom and boundless love, has taken in death our loved friend and co-laborer in our society, Miss Ida Houck; therefore, be it resolved.

1st. That while we sadly mourn the loss of one who was very dear to us by reason of her pure and unselfish life, we know that our loss is her eternal gain, and we humbly bow in submission to the will of Him who doeth all things well.

2d. That our society has lost an earnest Christian, a devoted member, and faithful officer.

3d. That we extend our deep and heart-felt sympathy to her bereaved sister and two brothers, and other loving friends, commending them to the loving Saviour for the comfort that he alone can give.

4th. That a page of our minutes be inscribed to her memory, and that these resolutions be published in The Lutheran Visitor.

Mrs. T. W. Dreher,
Miss Rosabel Dreher, Com.
Miss Custis Wingard.

French Spoliation Claims.

Washington, April 24.—Senator Warren, from the committee on claims, has reported an amendment to the sundry civil appropriation bill for the payment of the French spoliation claims, which have been allowed by the Court of Claims. It carries with it an appropriation of \$1,020,000.

A Wonderful Family.
Near Athens, Ga., resides a family recently one of the most remarkable families to be found anywhere in that section of the south. It is the family of I. D. Glover, a man of the average weight of about 156 pounds. Glover's "children" and his wife, however, are persons whose weights are far beyond the ordinary. To begin with, the wife weighs 316 pounds, over twice the weight of the husband. Joseph, the heaviest of the "boys," weighs 212, David coming a good second with 309 pounds of avoirdupois. Mary, the only girl of the family, weighs but little less than her giant brothers, tipping the beam at about seven 2000. "Iskman," the "man," who, the neighbors say, "takes after his daddy," weighs but 190. Taking the six as a grand total, it is doubtful if there are a half dozen families in the United States comprised of a similar number that will weigh as much. Collectively they weigh 1,583.

The "big McKinnies" is a celebrated Hawkeye family, two members of whom, with their mother, reside in and around Knoxville, Ia., are composed of four persons—James, Oscar, Frank and John—the quartet weighing 1,046 pounds.

Borgout's "Queer Characters of Hungary" tells of an Italian family of ten persons, the smallest of whom weighed 326 pounds after his left leg had been amputated above the knee. They were known as the "Heslop Giants" and were in their prime about the year 1746.—St. Louis Republic.

How to Grow Sweet Peas.
Sweet peas should be sown very early in the spring—in April, if possible. They should be kept moist and cool at the root. In order to secure these results sow in trenches at least six inches deep, covering lightly at first. Draw earth about the plants as they reach up until the ground is level again.—Ladies' Home Journal.

Better Than Surgery.
Nicola Tesla is more than half convinced by his experiments in radiography that material energy is capable of penetrating the human skull. So the cathode rays may yet supplant the crude and primitive processes of surgery as a means of conveying jolts.—Philadelphia Record.

Russia's Plague of Rodents.
Russia has suffered from a genuine plague of rats and mice, and the story is attractively told by United States Consul Heenan at Odessa, in a report to the state department. The vermin first appeared in southern Russia in the autumn of 1894, and they increased in number with marvellous rapidity, owing to the heavy grain harvests leaving much unthreshed grain, and in the mild weather. In addition to the common house and field mouse, another and new variety appeared, having a long, sharp nose. These mice overrun every place, and they moved in vast numbers like armies, and in instances did not hesitate to attack men and animals. While the rats were not so numerous as the mice, they were more destructive, eating everything, gnawing away wood-work, and even ruining entire buildings. After exhausting all other means, the plague was finally terminated in 1894 by resort to bacteriology, when the vermin were destroyed by the inoculation of a few rodents with contagious disease germs.—Washington Post.

It will be an agreeable surprise to persons subject to attacks of bilious colic to learn that prompt relief may be had by taking Chamberlain's Colic, Cholera and Diarrhoea Remedy. In many instances the attack may be prevented by taking this remedy as soon as the first symptoms of the disease appear. 25 and 50 cent bottles for sale by Julian E. Kauffman.

Attention Comrades.

HEAD QUARTERS, CAMP LEXINGTON, No. 668, U. C. V., Lexington, S. C., April 6, 1896.

Please send up the amount due at your very earliest convenience, so as to close the book account for the present year.

M. D. HARMAN, Adjt., Camp Lexington, No. 668, U. C. V.

Suspected Filibuster.

Norfolk, Va., April 24.—The steamer Howard Cassard has arrived at Newport News from Washington and is under the strict surveillance of the custom house authorities and the Spanish consul at this port, official dispatches being received that she was suspected of being a filibuster and that her mission in these waters was to secure coal and supplies. The Howard Cassard was built some years ago at Baltimore with the especial purpose in view, it is said, of crossing the Atlantic in five days. She is a long, slim, rakish looking craft and would give a war vessel a good chase.

The Great Family Medicine.

Is Spiritine Balsam. This valuable preparation is the pure extract of certain pine trees, and manufactured with great care, and in consequence of the astonishing success in removing diseases, has become very popular and is being called for again and again until it is a necessity in every household.
