LEXINGTON, S. C., WEDNESDAY, NOVEMBER 9, 1898.

THE ELECTION

As far as we have been able to ascertain the election yesterday passed off quietly, with but few exceptions. The indications are that the Republicans will control the next Congress, but by a greatly reduced majority. While supremacy has been firmly established in North Carolina, and the negro vote has been forever removed from the necks of the whites. The work of Senators Tillman and McLaurin in that State had a telling effect for good, and their names are household words around the firesides in the Old North State.

Teddy Roosevelt, Republican, has been elected Governor of New York. His connection with the Rough Riders and the long purses of millionaires did the work.

According to all reports received up to this hour the election in this State passed off quietly, with the exception of a fatal shooting affair in Greenwood county, near Greenwood, in which young Ethelberg, white, lost his life at the hands of a black negro. As soon as the news of the murder became known, bands of armed white men congregated at the scene of murder and the search for the murderer began. Tolbert and Henderson, two young white men who are said to have incited the negroes to commit deeds of violence, were captured and executed without judge or jury. Our information is that large bands of whites from Edgefield, Laurens and contiguous counties are hurrying to the scene of the disturbance and the gravest apprehension is felt for the safety of the negroes implicated in the murder. There was a very light vote in this State. To account for this we have only to say that in this State a nomination in the Democratic primary is virtually an election. Out of a Democratic vote of about 400 only 88 votes were polled yesterday at this place, and this poll may be taken as a basis for an estimate for what the vote of the county will be.

A robust, manly son and a cooing baby-girl nestling in her bosom—what more can any woman ask? It is a boon that Heaven intended should be granted to every woman. Thousands of folk after their health in a neglected way. The health of a woman's babies is dependent upon her own health during the period of prospective maternity. The prospective mother cannot be too particular about her physical condition. If she suffers from local weakness, nervousness or loss of vigor, her child will be weak, puny and sickly. Dr. Pierce's Favorite Prescription is the only unfailing cure for all weakness and disease of the delicate and important organs that bear the brunt of maternity. It makes these organs strong, healthy, vigorous, virile and elastic. It restores the vitality, vigor and cheerfulness. It robs maternity of its perils. It insures a baby constitutionally strong. It is the invention of an eminent and skilled specialist, who has had thirty-years' training in this particular branch, during which time he and his staff of physicians have prescribed for many thousands of women. Medicines dealers sell it and an honest dealer will not urge upon you an inferior substitute. The little added profit he may make thereon is an amply just reward for his skill and a half month's old, writes Mrs. J. H. Counts, Box 232 of Lenoir, Great Smoky Mountains National Park, Tenn. "I cannot give too much praise to Dr. Pierce's Favorite Prescription."

Discovered by a Woman. Another great discovery has been made, and that too, by a lady in this country. "Disease fastened its clutches upon her and for seven years she withstood its severest tests, but her vital organs were undermined and death seemed imminent. For three months she coughed incessantly and could not sleep. She finally discovered a way to recovery, by purchasing of us a bottle of Dr. King's New Discovery for Consumption, and was so much relieved on taking first dose, that she slept all night; and with two bottles, has been absolutely cured. Her name is Mrs. Luther Latz." Thus writes W. C. Hammick & Co., of Shelby, N. C. Trial bottles free at J. E. Kaufmann's Drug Store. Regular size 50c. and \$1.00. Every bottle guaranteed.
