McLaurin Aides Whites In Two Sister States.

His Speeches in North Carolina-This Week He is Hard at Work in Virginia.

Special to the State.

Mount Airy, Nov. 2 -Last night at the opera house in this city Senator John L. McLaurin of South Carolina spoke to a crowded house on issues of the day in this State. His speech was one of the best heard in this section of the State for years. Quite a large number of the Republicans and Populists were there and his speech had much telling effect on them, some of whom will vote Democratic tiicket at the coming election and thus help to preserve white supremacy. The Republicans see where they are drifting and most of them have determined to better their condition politically as well as other-

Mr. McLaurin is being besieged on every side to make speeches to the people of this State and Virginia. He will make four speeches in Virginia this week to help the Democracy of that State. He is making ringing speeches at every point.

In Carroll county, Va. Senator McLaurin will speak at Lambsburg Thursday, November 3, at 11 a. m., Glenwood church, Friday, at 11 a. m .; and the same day at Woodlawn, at 7 p. m; Fancy Gap near the "Devil's Den," Saturday, at 11 a. m. There will be a big dinner given at; the Fancy Gap church near the Devil's Den.

BUTLER GIVES AID ALSO. Special to the State.

Gaffeney, Nov. 2 -Our people being close to North Carolina are much interested in the fearful condition the white people of that grand old State, are ready to give them any aid that emergencies may demand.

In fact we have already been helping them. Our talented and eloquent young townsman, Col. T. B. Butler, in response to an invitation from the leaders of the Democracy in the old North State delivered an address to the yeomanry of Cleveland county at Patterson's Springs a few days ago, and, we learn, with telling effect. He gave the South Carolina notion of white supremacy prominence, and it was absorbed by white men determined to rule.

Col. Butler says that in Cleveland county the conditions are not so bad, locally, for there the white people rule. But that these Cleveland people are straining every nerve, so as to as much as possible relieve their bretheren in the eastern part of the State. Col. Butler describes the conditions as fearful, such as white people never have nor never will submit to long.

From New Zealand.

Reefton, New Zealand, Nov. 23, 1896. I am very pleased to state that since I took the agency of Chamberlain's medicines the sale has been very large, more especially of the Cough Remedy. In two years I have sold more of this particular remedy than of all other makes for the previous five years. As to its efficacy, I have been informed by scores of persons of the good results they have received from it, and know its value from the use of it in my own household. It is so pleasant to take that we have to place the bottle beyond the reach of the children.

Martial Law Being Enforced in Augusta.

Protecting the Negro Ripist From the Mob- The Wounded Soldier

May Recover-Quick Trial. Augusta, Ga., Nov. 3 - The Au-

gusta jail tonight is under guard to prevent a repetition of last night's attack by lynchers who wanted to wreak vengeance on Will Robinson for attempt to outrage Miss Walker. Will Moore, private in Co. C, 2nd

Georgia volunteers, who is here on furlough awaiting muster out, is not as badly wounded as first thought. It is believed now that he has a fair chance for recovery. Soldiers, however, express indignation at his injury, and to prevent any movement on their part, Col. Brown of 2nd Georgia, wired Capts. Renkl and Fry to call in all arms and ammunition, which was done, and guard was placed over it to see that the men would not get the same again in their possession. Several of the soldiers of the Second army corps, who have just arrived from Camp Meade, were in the mob last night.

Gov. Candler during the day wired from Atlanta ordering the following troops of the State militia to report to Sheriff O'Connor for duty: 'away.

The Lexington Dispatch | Richmond Hussar's (cavalry), Ogle-Irish volunteers.

Cavalry and infantry have been patrolling streets within several blocks of the jul in all directions since nightfall, and up to midnight the mob has not made its appearance. Two men are not allowed to walk together within the district under martial law. The grand jury meets in the morning, and Robinson will be promptly indicted and tried on Monday. The penalty for assault in Georgia is death, but where the crime has only been attempted and not accomplished, it is a penitentiary offence. There are some who believe that the facts when revealed fully to the grand jury by police authorities, will subject the prisoner to the death penalty. The man's attempt at assault, even if his crime is no greater, is so peculiarly revolt in its details that they cannot even be intimated without exciting the utmost indignation and horror.

The Best Plaster.

A piece of flannel dampened with Chamberlain's Pain Balm and bound on to the affected parts is superior to any plaster. American Peace Commission W Weigh All Points Involved.

Paris, Nov. 4 - The two peace commissions met this afternoon. The Americans were aware before the session that the Spaniards would decline their proposals made on Monday to take the entire Philippines and pay all debts actually incurred by Spain for the benefit of the island. A statement was printed here today with much display to the effect that the Americans would insist upon the complete surrender cf Spain's sovereighty in the event of her refusal to accept the terms of the issued u timatum. No ultimatum is contemplated, there is no probability of drastic measures being taken by the Americans. The Americans expect to patiently weigh all the points involved and carefully consider the arguments of the Spaniards.

New Cotton Mill.

The Secretary of State has issued charter to the Palmetto Cutton Mills of Columbia. Among the corporators we notice the names .f Mr. W. Pickens Roof, of this place, President of the Lexington Manufacturing Company, of this town and of Saxe-Gotha Mills, at Irene, and Col. Allen Jones of Columbia, Secretary of the above mills. The Palmetto Mill will be located in Co lumbia and will manufacture all grades of cotton goods, including prints. The machinery of the defunct negro mill in that city has been purchased and the mill will be run by electricity furnished by the Columbia Water Power Co. The entire output of the mill has been contracted for by a wealthy dealer in cotton goods, in the North and its success is an assu el fact.

I leave to my brothers and sisters as much shame and mortification as I can bring on them. I leave to my wife a broken heart and a life of shame. I leave to each of my childien poverty, ignorance, a low character, and a remembrance that their father filled a drunkard's grave."

THE RECOMMENDATION OF REME-DIES WHICH REALLY CURE.

A consis ently conservative pelley has alvays characterized the editorial conduct of this journal. And we think this had no small share in winning our place in the public confidence. For it is universally recognized that we only express a decided opinion after mature reflection and exhastive, impartial examination of every sub ct we discuss. Whenever a remedy or a novel method for the treatment of disease appears the American Journal of Health conscious of the duty it owes its readers, first investigates and then speaks. We take nothing for granted - neither the advertisments of the remedy itself or the printed testimonials as to the cures it has eff cted affuences our judgment. Only when we have convinced ourselves by actual demonstration of the truth do we undertake to publish our vi ws. Then our views are positive, because they are based on knowl edge, and they either praise or blame the particular remedy strictly according to its

An instance where we can bestow our praise occurs in the case of ' Dr. Thacher's Worm Syrup," off-red by the Thach r M-dcine Company, of Chat anooga, Tenn. We have verified the record of this remedy as country, but it is often dishonorably in an infallible specific for worms. We satisfied ourselves of the genuineness of this specific: we intrusted the matter to a medca' man of long and varied experience, and for many years connected vith this journal in an editorial capacity His report sconclusive proof that here we have a remedy which is not a palliative simply, but a cure In saying this we are aware that we assert a great deal, but we are also confident that we are not a serting too much. The truth is that in many instances the so called cures afford only temporary relief; frequen'ly they do not even accomp'ish that But in 'Dr. Thacher's Worm Syrup" sufferers have found, and we are satisfied will find, that permanent benefit

which it is the prime purpose of medical stil to bestow. Every circumstance connected with the alject of our inquiry was n.v. stigated by us. No pains were spared to render the inquiry full and complete. We can, therefore, address our readers in positive lan-guage retarding this remedy.
