

Sweet Bells Jangled Out of Tune and Harsh.

Shakespeare's description fits thousands of women. They are cross, despondent, sickly, nervous—a burden to themselves and their families. Their sweet dispositions are gone, and they, like the bells, seem sadly out of tune. But there is a remedy. They can use

McELREE'S Wine of Cardui

It brings health to the womanly organism, and health there mean well poised nerves, calmness, strength It restores womanly vigor and power. It tones up the nerves which suffering and disease have shattered. It is the most perfect remedy ever devised to restore weak women to perfect health, and to make them attractive and happy. \$1.00 at all druggists.

For advice in cases requiring spec ial directions, address, giving symp toms, "The Ladies' Advisory D partment," The Chattanooga Medicine Co., Chattanooga, Tenn. REV. J. W. SMITH, Camden, S. C. says:—"My wife used Wine of Cardui at home for falling of the womb and it entirely cured be."

Againaldo's Speech at the Tarlac Celebration.

Affection for Mother Spain-Quotes the Monroe Doctrine in Referring to America and Her Course in the Philippines.

Manila, July 12, 7:25 p. m -A copy of the Independencia has reached Manila containing the speech which Aguinaldo made during the recent celebration at Tarlac, of the anniversary of the proclamation of Filipino independence. In substance it is as follows:

"Filipins, beloved daughter of the ardent Sun of the Tropics, commended by providence to the care of noble Spain, be not ungrateful to her salute who warmed you with the breath of her own culture and civilization.

"It is true she ought to crush thy aspiration for independence, as a loving mother opposes separation forever from the daughter of her bosom. This but proves the excess of affection and love Spain feels for thee, Filipina! Delicate flower of the east, scarcely eight months weaned from the breast of thy mother, thou hast dared to brave a great and powerful ing nation such as is the United States. after barely organizing and disciplinthy little army. Yet we reply, we will be slaves to none, nor allow ourselves to be deceived by soft words. Let us continue to defend our fatherland until independence is assured. for this is justice. We shall see at least that the great American nation will acknowledge the right which is on our side. That doctrine of the great Monroe, that America is for Americans, is not forgotten. Just so we affirm that the Philippines are for the Filipinos. Some States of the American union have arisen in our

convinced that both victors and vanquished will lose precious lives. Thus many of the people and many stalesmen censure President Mc-Kinley as inhuman for having ordered his military representatives at Manila to seek means to bring about hostilities. With the Filipinos these facts prove that they wished to try us to see if we are able to live up to the second color of our banner, red, which signifies courage, hereism and martyrdom. Therefore, we should not resent this struggle with the Americans. In spite of their expressed desire to dominate all the Pnilippines, well convinced are they that we will fight with justice and right on our side and that autonomy is all a show of deceit, only serving to save certain accumulated wealth. We have never concealed our aspirations, that we aspire but to independence. that we will struggle on to obtain it. perhaps from those who are now our enemies and tomorrow will be our allies as they were for the overthrow of the power of Spain. We might well accept this autonomy America offers, but what can we do with it if our ambition is independence and if we are to accept it only to later overthrow by force of arms the sovereignty of America? As I believe it is the intention of the autonomists to make use of treachery and decei+, we cannot accept such a procedure. We do not wish to be traitors afterward. We wish to show our character, our frankness and sincerity and nothing more. Let us avoid the example of those natives, who having at one time been colonists, accepted autonomy to

enable them to make their work surer, once everything was prepared. History has given us an example of this in recent events. Let us persist in our idea, which is the only and legitimate and noble aspiration of a people which is desirous at all cost to preserve its national honor, spotless and as pure as a crystal. Thus, then, there will not be a single Filipino autonomist. Those who are so are in the eyes of the people but time servers, fearful of losing their riches, threatened by risks of war.

"Filipinos, let us be constant! Let us strengthen the bonds of our union!' Aguinaldo concluded with calling for cheers for independence, the union of the Filipinos and for the liberating army.

Ladies Can Wear Shoes

One size smaller after using Allen's Foot-Ease, a powder to be shaken into the shoes. It makes tight or new shoesfeel easy; gives instant relief to corns and bunions. good is being done for the Master. I regret to learn of the illness of Mr. J. L. W. Fallaw, who is doing business for Mr. D. B. Sphaler in the praise." This marvellous medicine city of Columbia. I wish for him a speedy recovery.

Billy's prediction for "Klondyke" was so true that he tries to dodge, and the only way around it is the "43d of December." Who ever heard the like? The idea of a graduate, possessing the knowledge and powers that he does, should be guilty of such a misdemeanor? Oh, well, he's only joking and knows this writer understands him. So its all in good humor after all, still Billy is going to

- ALCOHOLD FOR BLOOD POISON

Beware of the Doctors' Patchwork; You Can Cure Yourself at Home.

doctors do more harm than good in treating Contagious Blood Poison; many victims of this loathsome disease would be much better off to-day if they had never allowed themselves to be dosed on mercury and potash, the only remedies which the doctors ever give for

blood poison. The doctors are wholly unable to get rid of this vile poison, and only attempt to heal up the outward appearance of the disease—the sores and eruptions. This they do by driving the poison into the system, and endeavor to keep it shut in with their constant doses of potash and mercury. The mouth and throat and other delicate parts then break out into sores, and the fight is continued indefinitely, the drugs doing the system more damage than the disease itself.

Mr. H. L. Myers, 100 Mulberry St., Newark, N. J., says: "I had spent a hundred dollars with the doctors, when I realized that they could do me no good. I had large spots all over my oldy, and these soon broke out into running sores, and I endured all the suffering which this vile disease produces. I decided to try S. S. S. as a last resort, and was soon greatly improved. I followed closely your 'Directions for Self-Treatment,' and the large splotches on my chest began to grow paler and smaller, and before long disappeared entirely. I was soon cured perfectly and my skin has been as clear as glass ever since. I cured my-self at home, after the doctors had failed completely." It is valuable time thrown away to expect the doctors to cure Contagious Blood Poison, for the disease is be

yond their skill. Swifts Specific-S. S. S. FOR THE BLOOD

-acts in an entirely different way from potash and mercury-it forces the poison out of the system and gets rid of it entirely. Hence it cures the disease, while other remedies only shut the poison in where it lurks forever, constantly undermining the constitution. Our system of private home treatment places a cure within the reach of all. We give all necessary medical advice, free of charge, and save the patient the embarrassment of publicity. Write for full information to Swift Specific Co., Atlanta, Ga. occasion.

Politics are booming up a little. What the outcome will be I can't say, but I hope my man will win aud hope everybody will vote for him. The proudest family in this com-

munity is that of Mr. J. F. Fallaw, they having occupied their new dwelling; but the happiest family, matrimonially and socially speaking, is the Felix family.

attend the feast on the memorable | Gen. Gomez Insists with Vigor on Independence of Cuba.

> Gen. Gomez Makes a Speech in Havana and the Local Press Praises the Demands-The Attitude Towards America-An Audience of Negroes.

Habana, July 12 .- At a meeting held last evening in the Payret theatre, after the street demonstration and parade in his honor, Gen. Galberto Gomez was himself the principal speaker. In the course of a long address, dealing with the reasons for beginning the war against Spain, he said: "I am now, as I always have been, a separatist; and I still demand the separation that I asked before the war, not only separation from Spain, but from any and all other nations. People only begin a revolution when this is absolutely necessary to life and progress. If a superior force deters them before

this object is attained, there is merely

the question of delay. 'The revolution will inevitably return. Nations, like stars, have their seasons of eclipse: but, following orbits, they emerge and accomplish their final destiny. The destiny of Cuba is only independence. The basic ideas of the revolution were no mystery and, therefore, a synopsis now, which would really remind us sary. Still we would retun to those direful days if it had to be. Honor is as much a necessity in national life as is food in the life of the individual, and it ought to be insured, if possible, even though the attempt may result in catastrophe and death.

"Such disasters we can avoid by perfect unison, by raising our voices to declare that this country is ours and that we want it for ourselves, by forgetting our enmities, by ebliterating personalities, by drawing a line through our terrible past and by devoting ourselves to the future.

"We should give due thanks to the Americans whose progress and power inspire our admiration, but this does not mean that we shall resign ourselves to a tutelage to be exercised over us. Let us make the same statement to the United States that the American colonies made to England when they declared in 1776 that the Americans owned North America."

The entire speech was in this spirit. The local press praises it today as "the most important occurrence since January 1st."

Most of those present at the meet ing were negroes and many of the banners borne in the procession showed the legend of "Independence or death."

Mr. and Mrs. B Lackamp, Elston, Mo., writes: "One Minute Cough Cure saved the life of our little boy when nearly dead with croup." J.

Jake and the State.

To the Editor of the Dispatch: Our neighbor, the Columbia State, in its issue of the 7th inst, with its usual very elegant English, reads your correspondent "Jake" an elaborate lesson.

"Jake" bows and gratefully accepts the compliment, and appreciates it the more on account of the source from which it came, coming as i does from a paper that never speaks unless it fully understands and knows what it is talking about.

We have no quarrel with our neighbor over the river, nor with any one else, nor will we, and not withstanding the State's great learning in versification and prose poetry, we do not care the snap of a finger about its attempted disparaging criticism.

Our purpose is, as much as in our power lies, to uncover and develop all future possibilities for the future development, enlargement and en richment of Brookland and all the accrued benefits reciprocal with the farmers, mechanics and laborers of Lexington county, and for this we The workingmen provide the carshall stand square up to neighbormanding of them all that may be justly and legitimately due us. This we want and no more. Saluda river divides Lexington county into two sections, and the county scat is on the south side. The river and its toll ferries are a barrier to the free intercourse of the citizens of the county for mutual benefit and pleasseldom learn anything worth learnure, and in a great measure blocks the wheels of trade and hinders the accumulation of the material wants of its citizens. This should not be so There should be free ferries across the river at convenient places up at d down the river and over the old Sa-Pills. Little Wide Awake Pills regluda bridge pillars now stanling in the river, there should be a free bridge built. The river at this point is very narrow and requires but two twenty-fourth cotton mill. spans to unite the two banks of the river. The granite abutments and the strong pillars in the centre of the river are standing as firm as the Rock of Gilbralter, and an iron

bridge over these pillars could be

cheaply built, and this, with the free

ferries, would firmly and forever unite

the two sections of Lexington county

a railroad track and a foot and

wagon way. This railroad track

would pass through Brookland, giv-

ing her a depot and making junction

at Cayce with the other roads. This

uniting link from the Saluda bridge

to Cayce would be about two miles

long and would require but little

grading, and could be quickly and

cheaply built and by this route cars

could come into Brookland from Co-

lumbia, Newberry and Cayce. These

with the opening of the niver to

steamboat navagation would make it

possible for Brookland to be a great

trading centre, where shipments to

and from all parts of the world could

be made. The old Saluda factory

site is over a mile along the river

bank from Brookland, with just fall

enough to develop fifty or more great

water powers sufficient to run any

number of mills desired, and to build

a great city of operetives. This

railroad link would pass directly

through the place and would greatly

facilitate the building of these mills,

dwellings, stores, etc. All these and

much more are possibilities, and

wise is he who now secures a cheap
