Summer Tonic

Many people lose flesh and be-come debilitated during the hot weather. They need a tonic that will enable the system to resist the enervating effect of torrid weather.

Dr. Williams' Pink Pills for Pale People are just that sort of a tonic. They have no purgative action, an important consideration in summer. They strengthen body and

Here is the sworn statement of H. K McLellan, of Hamilton, Ill., who gained 27 pounds by using this wonderful remedy. He says:

"I was miserable all the time, much reduced in flesh, and unable to satisfactorily attend to business. My wife persuaded me to try a box of Dr. Williams' Pink Pills for Pale People, and I did so. To my surprise I had taken but part of a box before I was better, and three boxes effected a relief that has been permanent.

"When I began to take the pills I only weighed 136 pounds; now I weigh 163. These pills did me more good than all the other medicines I have ever taken. My wife has also used them for general debility, and they were beneficial to her." H. K. McLELLAN.

We need the money to meet current expenses and we are compelled to get it from our subscribers who owe us, therefore we insist that they must pay. Do not wait for him to look you up; he will have your account and he knows that you owe the Dispatch and so do you so, hunt him up and pay what you can. Some subscribers, failing to pay something on his rounds need not be surprised if they fail to receive the Dispatch after the campaign closes.

Railroad Smash Up.

Last Thursday morning there was nite a bad smash up at Barr's Land ing, about four miles below this place. It seems that the regular morning freight train from Columbia, was to pass this place and take the side track at Barr's Landing to allow an extra watermelon train from the Carolina Midland road to pass. On arriving at Barr's the freight train took the side track, but it was too long to clear it. Just as the freight train rolled up on the side track the watermelon train came thundering up to the station, the engineer, Mr. Powell, seemed unable to control the train on account of the down grade and his air brakes refusing to work, and the engine went crashing into the rear end of the regular freight train, which was on the main track. The locomotive was ditched and turned over on its side a complete wreck. Some eight or nine freight cars were badly demolished and the track torn up. Both the Southbound and Northbound trains were delayed, but a large force of hands were put to work and the wreckage was cleared before nightfall. Engineer Powell received some slight injuries, but fortunately no one else | S. 56 degrees 40' W. along said line fence was injured.
