MIXED PICKLES.

A Palatable Dish of Interest Reading Matter.

Remember your County Fair. Artificial cotton is being manufactured in Austria.

Your presence will be greatly appreciated at the County Fair.

Let us all go to work to make our County Fair a howling success.

In the Governorship contest the Supreme Court of Nevada decided that Sadler was elected Governor by a plurality of 60.

It is the duty of every person in Lexington county to send an exhibit and attend the County Fair.

2,000 coal miners in West Virginia last week asked for an advance of 5 cents per ton, which was refused, and they went out on a strike in a body.

St. Vincent, the United States hospital at Norfolk, Va., was burned on September 21. It was the largest hospital in the South and was valued at \$250,000.

The war cloud in South Africa continues to grow darker and more threatening each day. The Boers seem determined to resist British tyranny to the last ditch.

Bacon, flour, lard, in fact all kinds of groceries, are advancing in price. Now let manufactured goods go up in price and then will the price of cotton pop up and the Southern farmer will reap the benefit.

4,500 Odd Fellows and their sisters of the Rebekah order paraded the streets of Detroit in full uniform. It was the grandest and most imposing procession seen in that city since 1890.

The Columbia Evening Record favors the continuance of the beer privileges on the ground that of two evils it is wisest to choose the least, therefore to reduce the consumption of whisky, beer drinking should be encouraged.

Dr. Timmerman, the State Treasurer, who has the reputation of being the handsomest man in South Carolina, had the misfortune to lose his barn and its contents by fire on the 20th inst. Loss about \$1,200. No insurance.

A party of insurgents ditched a railroad train near Angeles in the Philippines, on the morning of the 22nd inst., and then fired on the derailed train from a bamboo thicket, killing two Americans and wounding five others. The insurgent were dispersed.

A report comes from Manila that the American prisoners in the hands of the Filipinos were treated well by their captors until the insurgents lost all hope of getting ransom, and then their treatment was changed and a system of starvation and cruelty was commenced.

The up country troops above Columbia will go to the Dewey celebration in New York over the Southern Railway. Their headquarters will be on Fourth street and the First Artillery U. S. A. band will be taken along. The troops below Columbia will go over the Atlantic Coast Line.

The State has so far neglected to give the name of the gentleman who it alleged is so familiar with the so-called popularity of its lately de-mised "soaking idea." Is the "gentleman" like the "idea" a myth, and exist in the imagination of the editor of the State only? Its silence is evidence of this.

"Liberty is nothing to me without honor," said Dreyfus on being informed that the French Cabinet of Ministers had pardoned him. And in this he was correct, for being wrongfully and unjustly convicted, both right and justice demand that his vindication be complete. Until this is done the Lilly of France will remain tarnished.

An election was held in Prosperity, Newberry county, on the 21st inst., on the question of "Dispensary" or "No Dispensary." By a vote of 27 to 30 against no dispensary carried the day, so that the people of that town who imbibe the liquid stuff will have to seek the lair of the blind tiger whenever they want to "take a smile."

The latest news from the irrepressible John F. Hobbs is, "that he is on the eve of sailing for the Fiji islands, where he proposes, in his own dominion, to raise a regiment of Fijians for service in the Philippine war. They are cannibals and eat white folks, but he says they will draw the line on Filipinos."

The last move in the Neal shortage case is that the Attorney General has fully determined to enter suit against Col Neal's bondsmen. It is understood that one of them favors making a settlement without a suit while another one oppose it on the ground that the Board of Directors should have known of the shortage and should have informed the bondsmen of the condition of affairs in time to save themselves.

She should be free of all female diseases and menstrual irregularities, because the condition of the wife makes or mars the home. Don't delay because you dread to consult a doctor, for a consultation is unnecessary. Get a few bottles of G. F. P.

MY WIFE HAS SUFFERED FROM WOMEN TROUBLES for more than eleven years, and has tried everything she could get, as well as several doctors, but nothing did her any good. Last spring I commenced giving her G. F. P. which gave immediate relief, and kept her greatly at her monthly periods. W. E. TURNER, St. Stephens, Ala.

Cotton Farmers' Trust.

There is Great Need For Such An Organization.—A New Orleans Business Man Favors Fighting the Devil With Fire if it Be Possible. Washington, September 20.—"I am against trusts as a general proposition, but I would be glad to see the cotton planters of the South form a combine in order to put up the price of cotton, said Mr. J. A. Steele, of New Orleans.

"This may sound a good deal like the proposition of the old Scotch fisherman, who wrote to Mr. Gladstone that he stood by him in his free trade views, but he thought there ought to be a duty on herrings. At the same time, at the risk of being considered inconsistent, I repeat that a farmers' trust would meet my approval.

"The poor devil of a planter toils the year round in the burning sun of our Southern clime, making a cotton crop, which, when gathered, ginned, and baled, must be sold by him for whatever price the buyer chooses to give. The owner of the product hasn't a word to say as to the price he shall receive, and being in debt for supplies to his local merchant, is not able to hold his bales to a time when he might dispose of them in a better market.

"I am dubious as to the possibility of such a planter's combination, but it would seem not to be utterly impracticable. It would be a clear case of combining in self defense, for at the prevailing prices of the past three years the production of cotton, instead of being attended with profit, has been an actual loss to those who are engaged in it. If a trust could advance the price even one cent a pound, it would mean a gain of millions of dollars to the Southern farmers, and the world at large, who consume cotton, would not be injured by such a slight increase."

"Best on the market for coughs and colds and all bronchial troubles; for croup it has no equal," writes Henry R. Whitford, South Canaan, Conn. of One Minute Cough Cure. J. E. Kaufmann.

"I never go shopping early in the morning." "Why not?" "That is the time when the shop girls are busy telling their dreams."

M. B. Peaver, Brynville, Ga., writes: Dr. M. A. Simmons Liver Medicine cured my whole family of Chills and Fever. It also cures Dyspepsia and Headache. I believe it stronger than Zeilin's and Black Draught.

"I love to make visits in the morning." "Do you?" "Yes; all the other women are busy cleaning their house, and it is so funny to see them try to act glad to see me."

Kodol Dyspepsia Cure is a scientific compound having the endorsement of eminent physicians and the medical press. It "digests what you eat" and positively cures dyspepsia. M. A. Ketron, Bloomingdale, Tenn., says it cured him of indigestion of ten years' standing. J. E. Kaufmann.

For Sunday night supper it is a good plan to serve a platter of delicate cold meat with salad. Try serving thin slices of cold tongue or chicken, garnished with parsley sprigs as an accompaniment of the lettuce.

Many who profess to follow Christ are willing that their brethren should lose life rather than that they should sacrifice liberty.

The pain of a burn or scald is almost instantly relieved by applying Chamberlain's Pain Balm. It also heals the injured parts more quickly than any other treatment, and with out the burn is very severe does not leave a scar. For sale by J. E. Kaufmann.

Little Johnny—Mrs. Talkemdown paid a big commission to me today. Mother—Did she really? Well, there's no denying that woman has sense. What did she say? Little Johnny—She said she didn't see how you came to have such a nice little boy as I was.

It is a favorite occupation to denounce the sons of wealthy men for being worthless. Yet their worthlessness soon scatters fortunes that might otherwise increase to the detriment of the general public. It is the wind that blows no one good.

A little boy had been sent to the dairy to get some eggs, and on his way back he dropped the basket containing them. "How many did you break?" asked his mother. "Oh, I didn't break any," he replied, "but the shells came off some of them."

E. E. Turner, Compton, Mo., was cured of piles by DeWitt's Witch Hazel Salve after suffering seventeen years and trying over twenty remedies. Physicians and surgeons endorse it. Beware of dangerous counterfeits. J. E. Kaufmann.

Mr. Moody said in New York: "Some men accuse me of being a hypocrite. Well, suppose I am. How does that make their case any better? I know some pretty mean things about myself, but you can't say anything against my Master."

An exchange sizes it up this way: "Many people in the country want to move to town; many people in town would like to live in the country. As a rule, a man's a fool; when it is not he wants it cool; when it is cool he wants it hot; always wanting what is not; never pleased with what he's got; as a rule, a man's a fool."

There's always hope while there's One Minute Cough Cure." An attack of pneumonia left my lungs in bad shape and I was near the first stages of consumption. One Minute Cough Cure completely cured me," writes Helen McHenry. Bismark, N. D. Gives instant relief. J. E. Kaufmann.

In 1857 the coinage of the big copper pennies, which every body has seen, were suspended. Up to that time they had been coined regularly for sixty five years. In all, 156,000,000 of the big, awkward coins had been put into circulation. Not more than one-fourth of that number have been paid back to the government or exchanged for other coins.

For wounds, burns, scalds, sores, skin diseases and all irritating eruptions, nothing so soothing and healing as DeWitt's Witch Hazel Salve. Mrs. Emma Bolles, Matron Eaglewood Nursery, Chicago, says of it: "When all else fails in healing our babies, it will cure." J. E. Kaufmann.

An Indianapolis shoe keeper who sells wooden shoes says that his style of footwear is extensively used by people who work in canneries, where hot solder, acid, etc., on the floors would ruin shoe leather; people who stand on wet floors, such as washer-women and the employees of cream-eries, and by fashionable women who wear them without stockings when they wish to rest their feet. The wooden shoes are made at Grand Rapids, Mich., from bass-wood, by Belgians.

A woman only knows what suffering from falling of the womb, which is a distressing condition, or any disease of the distinctly feminine character.
