A Cultured Teacher.

To the Editor of the Dispatch:

When the train arrived in Lexington Saturday, July 14, Lexington's most highly cultured teacher was met by Col. D. T. Barre. She is up to date in every respect. No fairer teacher ever entered on duty. Tho bot and sultry, she seemed delighted that she had the privilege of meeting her little friends. After a cordial greeting Miss Gertrude Geiger entered the school with soul and mind cooperating to bring forth and develop the young minds that need be trained for a higher and nobler By an Unknown Friend.

A Card to Voters.

Owing to sickness in my family I have been unable to do but little canvassing since my announcement as a candidate for Clerk of Court, but hope in the future to be with my friends thoughout the county and will attend all the campaign meetings. Trusting that my friends will remember me with their votes on the 28th of August and thanking you for your support four years ago, I am, your obedient servant, E. T. Rauch,

Our Moonlight Picnic.

To the Elitor of the Dispatch:

It was on the thirteenth inst, that we realized the long anticipated pleasure of another moonlight pic-

On the night mentioned, just as the moon in all her beauty came forth to illuminate our Southern homes with silvery beams, we were at the hospital home of Mr. and Mrs. E A. Gardner to share with them the never to-be forgotten pleasures of the occasion.

The weather was delightful, as it had just rained, making the air cool and pleasant. The nicely arranged parlor was beautifully lighted, giving grace and beauty to the elegantly dressed couples as they all took

active parts in the numerous plays. The music was charmingly rendered by Mrs. Casson and her accomplished daughter Miss Dora, of Columbia; while the older folks were untiring in their efforts to amuse the

The young ladies were prettily dressed in their tasteful costumes of white, looking as fresh and lighthearted as if their fair brows had never been marred by the cares of

"Our Boys" were no less charming and attractive in appearance and manners, than the girls. They were all "dressed in their best," and their faces were illuminated with smiles, while they wore an air of dignity, culture and refinement. They were very much elated at the idea of having the girls bow before them to the young ladies seemed to be very much grieved to find that she had to bow once more in humble submission before Mr. Sammie Gardner and implore his pardon for a compliment, which was heartily lavished

upon the young men. About twelve o'clock the joyful sound of supper came ringing into our ears. Very nicely coupled off, we were ushered out to do justice to without further hesitation. After supper we retired to the parlor where we passed the remainder of our time very pleasantly indeed, until the parting good night came.

The occasion was a very pleasant one and we hope it will not be long before we shall have another.

One Present.

A Card from Prof. P. T. Brodie.

To the Editor of the Dispatch: I beg through your columns to explain to the teachers of the county the seeming uncertainty that has characterized my connection with the published notices of the Lexington Teachers' Summer School. For two years in succession, with-

out solicitation on my part, the State

Superintendent of Education has appointed me Principal of this school. I accepted both appointments, conditioned upon my ability to do the work without interfering with college duties. In both cases it seemed reasonable to suppose that I should be able to serve. Members of our faculty are always liable to be called upon for college work during vacation. Upon the decision of the authorities to grade and macadamize the road from Clemson to Calhoun last summer, I was placed in charge, as the college engineer, and was engaged there the greater part of the time that the Summer School was in progress. This summer a similar state of affairs exists. A railroad line from Clemson to Cilhoun bas been projected for some months. The surveys have been made and the plans prepared by the Civil Engineering division of the Mathematical Department, under my direction. It was my impression that this work would not require further attention until after vacation. At a meeting of the Executive Committee of the Board this week, however, it was decided to proceed during the summer with the grading of the line. This will not necessitate my presence at the college the entire time, but it will be impossible for me to be away so long as a month-and particularly the month of August, during which the Lexington school will continue. This disappointment comes with added force after that of last summer, seems, however, that we are in the but no blame for it attaches to any

I had looked forward with real pleasure to a month of service for Corn and cotton are withering and the teachers of the county. Any dying and potatoes are suffering for college man in the State should want of rain. The heat has been | count it an honor to be used for the intense and its effect on crops has betterment of the common school been disastrous. The same condi- system, and in the teachers of Lextion, we learn, exists in some sections | idgton I feel more than a casual P. T. Brodie.

RHEUMATISM and CATARRH CURED

Johnston's Sarsaparilla QUART BOTTLES. IN THE SHADOW OF DEATH.

A Whole Family Cured. Mrs. C. H. Kingsbury, who keeps a millinery and fancy goods store at St. Louis, Gratiot Co., Mich., and who is well known throughout the country,

says:
"I was badly troubled with rheumatism, catarrh and neuralgia. I had liver complaint and was very bilicus. I was in a bad condition; every day I began to fear that I should never be a well woman; that I should have to settle down into a chronic invalid, and live in the shadow of death. I had JOHNSTON'S SARSAPARILLA recommended to me. I TOOK FOUR BOTTLES AND IT CURED ME and cured my family both. I am very glad that I heard of it. I would cheerfully recommend it to every one. I have taken many other kinds of med cine. I prefer JOHNSTON'S to all of them.' MICHIGAN DRUG CO., Detroit, Mich. J. E. KAUFMANN, Lexington, S. C.

China News.

The latest reports from China gives a faint hope that the American and other legations, with the exception of the German minister, are safe in Pekin. This statement, however, is seriously questioned by many.

The Emperor has petitioned this government to use its good offices to meditate between the Power in behalf of China. The following is President McKinley's reply:

The President of the United States to the Emperor of China, Greet-

I have received your majesty message of the 19th of July and am glad to know that your majesty recognizes the fact that the government and people of the United States desire of China nothing but what is just and equitable; The purpose for which we landed troops in China was the rescue of our legation from grave danger and the protection of the lives and property of Americans who were sojourning in China in the enjoyment of rights guaranteed them by treaty and international law. The same purposes are publicly declared by all the powers which have landed military

forces in your majesty's empire. I am to infer from your majesty's letter that the malefactors who have disturbed the peace of Cains, who have murdered the minister of Garmany, and a member of the Japanese legation, and who now hold beseiged in Pekin those foreign diplomatists who still survive, have not only not received any favor or encouragement from your majesty but are ac ually in rebellion against the inner man, which we all did, the imperial authority. If this be the case. I most sclemnly urge upon your majasty's government to give public assurance whether the foreign m nisters are alive, and if so, in what condition.

To put he diplomatic representatives of the lowers in immediate and free communication with their respective governments and to remove all danger to their lives and literty. To place the imperial authorities

of China in communication with the relief expedition so that cooperation may be secured between them for the liberation of the legations, the protection of foreigners and the restoration of order.

If these objects are accomplished it is the belief of this government that no obstacles will be found to exist on the part of the powers to an amicable settlement of all the questions arising out of the recent troubles and the friendly good offices of this government will, with the assent of the other powers, be cheerfully placed at your majesty's disposition for that Wm. McKinley. July 23, 1900.

By thy President. John Hay, Secretary of State.
