**Over-Work Weakens Your Kidneys.**

Unhealthy Kidneys Make Impure Blood.

All the blood in your body passes through your kidneys once every three minutes. The kidneys are your blood purifiers, they filter out the waste or impurities in the blood. If they are sick or out of order, they fail to do their work. Pains, aches and rheumatism come from excess of uric acid in the blood, due to neglected kidney trouble.

Kidney trouble causes quick or unsteady heart beats, and makes one feel as though they had heart trouble, because the heart is over-working in pumping thick, kidney-poisoned blood through veins and arteries.

It used to be considered that only urinary troubles were to be traced to the kidneys, but now modern science proves that nearly all constitutional diseases have their beginning in kidney trouble.

If you are sick you can make no mistake by first doctoring your kidneys. The mild and the extraordinary effect of Dr. Kilmer's Swamp-Root, the great kidney remedy is soon realized. It stands the highest for its wonderful cures of the most distressing cases and is sold on its merits by all druggists in fifty-cent and one-dollar sizes. You may have a sample bottle by mail. Home of Swamp-Root, free, also pamphlet telling you how to find out if you have kidney or bladder trouble. Mention this paper when writing Dr. Kilmer & Co., Binghamton, N. Y.

**Canned Horse Meat.**

The canning of horse meat is a profitable business in Oregon. Horses valued at from two to three dollars are prepared for export in cans to European countries where the prejudice against horse meat as food is not as marked as it is in this country. The horses used are the unbroken "cayuse" ponies that are not only valueless even with the British army paying good prices for almost any kind of a horse, but is a positive detriment to the stock raiser, as they eat off as much of the grazing range as will fatten a steer that will dress 1,000 pounds—so the stock men are anxious to get rid of them.
