**Spring Term for Teachers.**

The South Carolina College has issued an attractive circular, announcing a Spring Term for Teachers, of six weeks, from April 13 to May 22, designed for teachers whose school terms may admit of attendance. By special Act of Legislature, such students are exempted from tuition and other college fees. Their only expenses will be for board.

A number of special courses, expressly designed for teachers, are offered: In Chemistry, a course in Elementary Chemistry, and in Laboratory Practice; in Modern Languages, English, German, Spanish; in History, South Carolina History, and Methods of History Teaching; in Philosophy, Psychology and Ethics, Applied to School Problems; in Pedagogics, a practical course, adapted to the needs of the class; in Ancient Languages, Elementary Latin, and Elementary Greek; in Mathematics, a course in Arithmetic, and in Algebra; in English, a course in Grammar and in Rhetoric; in Biology, a practical course in Botany; in Physics, a course of Elementary Physics, with such apparatus as may be had in schools.

In addition to such special courses, teacher-pupils are allowed free attendance upon any of the regular college classes. Courses are open to the free election of teachers, under proper regulations.

These courses of instruction are offered as supplementary to the work of the summer schools, or in lieu thereof, when attendance on summer schools may not be practicable. Their purpose is, as in the summer schools, to elevate the work of teaching in the schools of the State—an object which seems especially appropriate in connection with the Normal Department, already established in the South Carolina College.

The same circular also calls special attention to the Normal scholarships—of \$40 00 each, with exemption from college fees—recently established by the Legislature in this College. These scholarships will go into effect next session.

**Chronic Bronchitis Cured.**

"For ten years I had chronic bronchitis so bad that at times I could not speak above a whisper," writes Mr. Joseph Coffman, of Montmorenci, Ind. "I tried all remedies available, but with no success. Fortunately my employer suggested that I try Foley's Honey and Tar. Its effect was almost miraculous, and I am now cured of the disease. On my recommendation many people have used Foley's Honey and Tar, and always with satisfaction." Sold by the Kaufmann Drug Co.

**Dead Man's Reception.**

One of the strangest sights ever seen here, says the Spartanburg Free Lance in its issue of the 27th inst., is that which is attracting hundreds of people daily to the undertaking establishment of Green & Thomson on Magnolia street, where Joe Keenan, the negro hanged in Greenville recently for murder, sits in a pine coffin in a comfortable attitude with a cigar between the fingers of his

right hand, and receives hundreds of callers daily, who come in to witness the strange spectacle.

Keenan was brought to Spartanburg last Saturday and the body was carried to Green & Thomson's. The coffin had been opened and the body seated in an upright position, looking perfectly life-like and natural. The body was embalmed in Greenville and is in a state of perfect preservation. The flesh is soft and altogether like that of a living human being. The negro's appearance is so natural that a spectator not knowing the facts in the case would believe that he was looking at a living man.

In his right hand Keenan holds a cigar which was presented to him after his arrival here. The rear of the undertaking establishment where the dead man is holding his reception for the general public is being visited by dozens of eager spectators all day who come to view the rather ghastly spectacle. The remarks of some of the bystanders would make very readable matter for a comic weekly. It is said that the negro's neck was not broken by the drop, but that he died from strangulation. The embalming fluid used in preserving the body is one of the most powerful antiseptics and according to Undertaker Thomson, who was discussing the matter, the body would keep indefinitely even were it exposed continually to the atmosphere.

**A Demonstration**

of What Chamberlain's Colic, Cholera and Diarrhoea Remedy Can Do.

"One of our customers, a highly respected citizen of this place, had been for ten years a sufferer from chronic diarrhoea," writes Walden & Martin, druggists, of Enterprise, Ala. "He had used various patent preparations and had been treated by physicians without any permanent benefit. A few months ago he commenced taking Chamberlain's Colic, Cholera and Diarrhoea Remedy and in a short time was entirely cured. Many citizens of Enterprise who know the gentleman will testify to the truthfulness of this statement.

**WINE OF CARDUI**

Safe blowers entered the store of D. L. Cato at Monetta, on Saturday night and blew open the safe with nitro-glycerine. The explosion awakened most of the people. Mr. Cato's home is only a short distance from his store and the men of the place quickly gathered. The inside of the store was a scene of wreckage. The show cases were broken and the door of the safe was blown across the store among the crockeryware. The robbers secured no money as it had been removed from the safe. As yet no clue to the burglars has been found.

**German Opinion.**

Berlin, March 27.—Pres. Roosevelt's refusal of the kaiser's invitation for the American battleship squadron to accept German hospitality at Kiel brings out various expressions from German dailies this afternoon. Most of them express the opinion that the kaiser has been rebuffed for the second time, and offer the more or less sarcastic suggestion that perhaps his humiliating devotion and courteous concessions to "Uncle Sam" will now cease.
