8 Cents

Eight cents a pound is what a young woman paid for twelve pounds of flesh.

She was thin and weak and paid one dollar for a bottle of Scott's Emulsion, and by taking regular doses had gained twelve pounds in weight before the bottle was finished.

Eight cents a pound is cheap for such valuable material. Some pay more, some less, some get nothing for their money. You get your money's worth when you buy Scott's Emulsion.

We will send you a little free.

To the Editor of the Dispatch:
