Died.
Juriah Kelly, daughter of Winkley and Betsy Shesly, was born March 11th, 1837, and died April 13, 1904, making her pilgrimage on earth 67 years, 1 month and 2 days. In early life she professed faith in Christ as her Savior and connected herself to the Baptist church and remained faithful to the end. She was married to Rev. G. W. Kelly in 1875. This union was blessed with five children, all of which preceded her to the spirit land. She leaves her husband, two brothers, one sister and a host of friends and relatives to mourn her departure.
J. E. Steele.

The Chain Gang.
We understand that the chain gang is now located near the town of Batesburg and is doing some excellent work on the roads in that vicinity. Capt. Jake Bickley is certainly the right man in the right place and the quality of the road work he is doing speaks for itself. Magistrates having convicts for the gang will find it in the vicinity of Batesburg.

Closing of the Delmar School.
To the Editor of the Dispatch:
The closing exercises of the Delmar Graded school will be held on Friday, April 23rd, to which the public is respectfully invited.

The program will consist of recitations, songs and dialogues by the students and addresses by some prominent public speakers. There will be a picnic dinner on the grounds and everybody is requested to come prepared to make this part of the program a pleasure.
Come up, Mr. Editor, and spend the day with us and see what our people are doing. Lloyd.
Delmar, S. C., April 18, 1904.

Letter to Allen Jones.
Columbia, S. C.
Dear Sir: You ask how many square feet a gallon will cover. Depends on condition of building. There is a great deal of lying on this point. The stock claim of lying paints is 300 square feet, two coats. It's a lie, as a rule. Devoe covers 300 to 500, our agents think. We think 300 too low 500 too high; though doubtless, they both occur. How much the other paints cover is equally doubtful; we guess 100 to 400. The truth is found in another comparison. Devoe is all paint, true paint, strong paint, and full-measure; the others in general are, at the best, diluted, adulterated and short-measure. They cover according to body and measure. You can't paint with clay, lime, chalk, sand, barytes, water or air—no body in them. Go by Devoe.
Yours truly,
F. W. Devoe & Co.,
New York.
P. S. The Kaufmann Drug Co., sells our paint.

Mrs. Rawl Sick.
It was reported on our streets last Wednesday that Mrs. Emmaline Rawl, of Batesburg, was critically ill, and Mr. James E. Rawl and Mrs. Scottie Harman, of this place, a son and daughter of this venerable lady, left for that place Thursday. Happily to say that on arriving there they found their mother much improved.

Baxter Items.
To the Editor of the Dispatch:
As you seldom come in our section I will say that there are many improvements made in and around Baxter. Mr. J. P. Copeland has completed his handsome residence and has moved into it. The paint brush has been applied to it. The residence of the late Dr. J. K. Kneese and the drug store of Dr. W. L. Kneese have received their finishing touches.
Dr. W. L. Kneese is kept busy day and night attending to his large practice.
The farmers are about through planting corn and many have planted some cotton seed.
Corn is coming up to a fine stand where the crows and moles do not visit too often.
The largest amount of fertilizers ever known is being used in our section.
The grain crop although small is looking very well.
We have a free rural delivery from Batesburg now carried by our friend, W. A. Rawl, who seems to enjoy it very much, and we are anxious for 12 o'clock to come so that we can get our mail. We are very thankful to Uncle Sam for this kindness. Also to our true and tried friend Lever for his masterly efforts for us.
We hear that Batesburg has a case or two of small pox. Well, that scares us, and I hope they will keep them at home.
We now have a flourishing Sunday school at Hulon every Sunday afternoon at 3 p. m.
The fruit crop will be very short with us, but we are banking on our gooseberry and blackberry crop, with an occasional huckleberry pie and honey thrown in for good measure. Now, Mr. Editor, in your rounds with candidate and barbecues call on us and we will divide crust with you and show you our monarch stump puller and where we keep our fish. We will furnish the poles and boat if you will bring your tackle and we'll try our luck with the finny tribe.
With best wishes for the Dispatch and all the candidates, I am, yours,
G. M. Adams.
