### Beautifying Roadsides.

The writes was much interested in going through a small park in a certain small town some time ago. Perhaps it is wrong to dignify the plot by the name of park for it contained less than 5000 square feet in the form of a triangle. It was located at the intersection of two roads, one of which would sharply at right angles, meeting a third road a hundred feet away and thus forming the triangle. This strip of ground was too small for building purposes, so the owner conceived the idea of making a park of it. He had it properly graded and sowed grass and then laid it out in simple, but artistic manner to trees and shrubs.

Feeling that he wished to care for it himself he retained the title of it, but made it known that the public was welcome to use it and that, to all intents and purposes it was public property. As the trees grew and cast considerable shade out a friend had cheap but serviceable seats placed in his little park for the benefit of the weary. The "keep off the grass" signs apply only to the adults, for children may roll on the grass all they wish. Here was a plot of ground worth, at building lot prices, perhaps \$150 or \$200, made to benefit a whole town.

More than that, it has increased the value of the property immediately surrounding it at least one-third, and best of all, it has been such an object lesson to the residents of this town of less than one thousand souls that real park of some ten acres is being made near the central part of the town. Supposing one applies this general idea to the beautifying of the roadsides by the planting of trees and the grading and seeding of the space between the road proper and the farm line? Is there any doubt but what it would pay?

### Women Becoming Sensible.

"The time is coming," says an eminent physician, "when women by the construction of their attire will have an equal opportunity with men to breathe the breath of life. I know that this is so by the marked change in the character of my patients. Ten years ago the average sick woman would take offense at any suggestion of tight lacing. Now she listens with respect and often asks eagerly for breathing directions and where to go for advice upon all these subjects."

I presented her with a bottle of Chamberlain's Pain Balm and after a few applications she decided it was the most wonderful pain reliever she had ever tried, in fact, she is never without it now and is at all times able to walk.
