Lybrand's Barbecue.

In speaking of the campaign meeting at Mr. George Lybrand's, in Aiken county, near Seiverr, on Tuesday of last week, the Aiken Journal and Review, after saying that Mr. Lybrand "engaged the Lexington Brass Band for the occasion and their music lent enthusiasm to the occasion," has the following concerning Congressman Lever: "Congressman A. F. Lever, of Lexington, was present, having come down with the boys of the band, and during one of the showers he was invited to speak. Mr. Lever made a short address, telling several amusing stories and stating his familiar reason why he was present, - i. e. - if there was a red headed, freckle-faced, etc., girl in the crowd who wanted a husband, he was ready to talk business with her. The specifications were too severe and Mr. Lever received his usual rebuff. Mr. Lever stated his views very strongly upon Rooseveltism and the Republican party in general. He declared that he is opposed to the education of the negro. His remarks aroused considerable enthusiasm."

Welcomed Old Mammy.

Chicago Chronicle. A beautiful young lady, a member of one of the richest and most aristocratic families of Henderson, Ky., married a few years ago and went with her husband to New York city to live. The affection between her and her "old black mammy" was very tender and the separation was very hard to bear. After the young wife had settled in the east she determined to have "mammy" come on a visit to her and sent the money for her ticket. Imagine the surprise of the prim New Yorkers when they saw an old colored woman coming through the station gate suddenly pounced upon by an elegantly dressed lady, who threw her arms around the old woman's neck and kissed her time and again. Dropping her bundles, the old woman seated herself on a truck and, drawing the lady upon her lap, tenderly stroked her hair and exclaimed: "My God, my baby! I'm so glad to see you, honey."

To her the fine lady was only the little girl whom she had tenderly nursed in sickness and in health and on whom she had lavished all the love of her simple heart.

Boll Weevil in Greenville.

Greenville News. Farmers of this county have been worried of late over the report that the boll weevil from Texas has been found heresabout. From various sections there were reports of a strange insect which got into the growing plant, damaging it badly, but as there was no expert to give an opinion the farmers were not able to determine whether or not the bug was the real Texas product.

Drink More Water.

The human body contains a complete sewerage system in which poisonous and disease producing refuse is constantly gathering and jeopardizing the health. The same rule which applies to municipal sanitation, and the danger of disease may be forestalled by flushing out this sewerage system with an excess of water. Just as truly as the gathering of filth from the city in the "sewerage veins" endangers the lives of the inhabitants, so the poisons generated by the bodily metabolism, collected in the excretory organs, will jeopardize the lives of the millions of inhabitants of the body, the living cells. Every action of muscle or of nerve are accompanied by the destruction of the cells.

This matter, if not eliminated, will accumulate like cinder in a furnace, preventing the proper performance

of function. The food is taken in like fuel for the furnace, is burned, and these products of combustion in the body will choke the fire just as in the ordinary stove.

Aside from the mere "choking of the flues," we must bear in mind that the body is constantly generating poisons, which, if eliminated freely, will do no harm; but which, if retained, will be productive of disease. Such a poison is uric acid, which is charged justly with causing rheumatism, gout, constant headaches, dizziness and a train of other symptoms; and it must be seen that if the accumulation of refuse is the cause of such conditions, the logical means of cure is its elimination. Other "products of metabolism" create their own types of disease, and all may be prevented by the free use of water.

A beginning of kidney trouble lies in the fact that people, especially women, do not drink enough water. They pour down tumblerfuls of ice water to cool their mouths, but do not drink enough water to carry off this detritus.

One Lady's Recommendation

I have, I believe, sold fifty boxes of Chamberlain's Stomach and Liver Tablets on the recommendation of one lady here, who first bought a box of them about a year ago. Cured of Chronic Diarrhoea After Ten Years of Suffering.

"I wish to say a few words in praise of Chamberlain's Colic, Cholera and Diarrhoea Remedy," says Mrs. Mattie Burge, of Martinsville, Va. "I suffered from chronic diarrhoea for ten years and during that time tried various medicines without obtaining any permanent relief. Last summer one of my children was taken with cholera morbus, and I procured a bottle of this remedy. Only two doses were required to give her entire relief. I then decided to try the medicine myself, and did not use all of one bottle before I was well and I have never since been troubled with that complaint. One cannot say too much in favor of that wonderful medicine." This remedy is for sale by The Kaufmann Drug Co.

A case came to light that for persistent and unmerciful torture has perhaps never been equaled. Joe Golobick, of Colusa, Cal., writes: "For 15 years I endured insufferable pain from Rheumatism and nothing relieved me though I tried everything known. I came across Electric Bitters and its the greatest medicine on earth for that trouble. A few bottles of it completely cured me." Just as good for Liver and Kidney troubles and general debility. "Did your husband catch anything while he was fishing?"

"Yes," answered young Mrs. Torkins. "He caught some fish whose names I never heard before. "Yais, - but de hen comes from de egg, too."

MRS. CECELIA STOWE, Orator, Entre Nous Club.

176 Warren Avenue, CHICAGO, ILL., Oct. 22, 1902. For nearly four years I suffered from ovarian troubles. The doctor insisted on an operation as the only way to get well. I, however, strongly objected to an operation. My husband felt disheartened as well as I, for home with a sick woman is a disconsolate place at best. A friendly druggist advised him to get a bottle of Wine of Cardui for me to try, and he did so. I began to improve in a few days and my recovery was very rapid. Within eighteen weeks I was another being.

Wood's Seeds.

Crimson Clover

Sown at the last working of the Corn or Cotton Crop, can be plowed under the following April or May in time to plant corn or other crops the same season. Crimson Clover prevents winter leaching of the soil, is equal in fertilizing value to a good application of stable manure and will wonderfully increase the yield and quality of corn or other crops which follow it. It also makes splendid winter and spring grazing, fine early green feed, or a good hay crop. Even if the crop is cut off, the action of the roots and stubble improve the land to a marked degree.
