It is a Fact!

That a successful business can only be attained through honest dealing, prompt service and indefatigable attention to detail.

That no permanent success was ever attained through trickery and subterfuge. That quality wins first, last and always, and that manufacturers produce different classes of Pianos. That there are some Pianos much better than others. That it is our policy never to misrepresent anything, nor allow our salesmen to do so. That we know that this is a good policy, because through strict attention to these methods, our business continues to grow rapidly. That it means a good deal to you to know in advance that the reputation of our line of pianos have been established from 65 to 82 years.

That there is one in Columbia used at least 40 years, and the tone quality shows no evidence of going out of business. That the pianos that you will secure from Malone's Music House will be the best that we, with years of experience in choosing the best, can buy. For Catalogue, prices and terms, address.
