FOR COAL, COKE OR WOOD FUEL.

The very best stove that can be had is none too good for you. Next in importance to the home itself comes the stove; for no article made and sold adds so much to

THE COMFORT OF THE HOME

as a thoroughly reliable Cooking Apparatus. Used on an average of three hours per day for three hundred and sixty-five days of every year it is the constant companion of the housewife and will undoubtedly have its influence upon her disposition.

IT IS MY CLAIM

that there is no Range offered to the American people that is better than the

"ECONOMIST,"

no matter what the cost of it may be. It will do anything that any other Steel Range will do; it will last as long as any other. It cost less than its competitors and but little more than trashy imitations which are not worth the room they occupy.

to every user of the Economist Wrought Steel Range.

Write me a postal card, it will bring to you my new and handsomely illustrated catalog showing anything and everything that you may need in Stoves, Ranges and heaters and the lowest prices that good goods can be sold.
