The amount of work required this year of Auditor Derrick, in assessing lands and other property, necessitates his having an assistant so that he may have the work done rapidly and satisfactorily. He has secured the services of Mr. E. D. Long, of Summit, who will assist him on his rounds.

Alfred J. Fox,

Granted Bail.

Associate Justice Eugene B. Gary granted bail in the sum of \$3,500 to Mr. Sam W. Stockman last Friday, charged with the murder of Mr. Hampton Hartley, at Summit, recently. Mr. J. Wm. Taylor, who is connected with the same crime, was granted bail in the sum of \$1,500. Solicitor Timmerman appeared in opposition to the motion. Both have given the bond required and have gone to their respective homes.
Please send in the amount you are due the Dispatch.

Called to See Us.

Capt. Moultrie Gibbes, now of Union, S. C., but formerly of Columbia, called to see us in our absence Thursday. We would have been very glad indeed to have met him. He was our first captain in the Civil war, commanding company O. (Col. Maxey Gregg's) 1st S. C. V. Regiment.

This brings to memory those initiatory days of the war when we were but a mere lad of 15 years; our services as messenger for Gen. M. L. Bonham at Manassas the trying duties as a soldier on sentry duty on the vidette posts on the historic Bull Run, around Centerville and Fairfax C. H. The first soldiers that bivouaced on these noted grounds, and perhaps the first to engage in anything like a battle was a portion of our regiment in the opening fight at Vienna, where Kemper's battery poured grape, canister and solid shot into a train of Yankee soldiers as they rolled up, inflicting terrible slaughter to soldiers and damage to the train, but it finally made a retreat back to Washington, leaving wounded and a few prisoners. Had it not been for an old farmer signal ling down the train the whole train of troops would have been captured. This was the beginning of a different ending.

Leading Salesman.

A nice suit of clothes becomes almost any person, and well fitting underwear is comfortable to wear, and nothing adds more to the person than a stylish hat. All of these can be had at the grand clothing emporium of J. L. Minnugh & Co., Columbia. Mr. John M. Stuart is one of the leading salesmen in this department and is known to be polite and painstaking with his friends and customers. He is a judge of goods and knows how to fit you out with something that will please you in looks and wear, and it is satisfaction to trade with such a man and with the house he is employed by. Here he has just what you want, and the prices are always right. His Lexington friends will find him handling one of the finest lines to select from that they ever saw. Call and you will be convinced.

Mistake Corrected.

In speaking of Auditor Derrick's rounds in our last issue, the types made us say, under the law the Auditor must take what is given him, and if there are inequalities, the boards of assessors and he are responsible for it. What we intended to say was, if there are inequalities in assessment that the boards of assessors, and not the Auditor, are responsible for it. As we pointed out before under the law the Auditor must take such assessments as are given to him under oath, and these assessments are passed upon finally by the board of assessors. We make this correction in justice to Auditor Derrick, who has plenty of burdens without this one added.

Now at Home.

Mr. Albert Sidney Nunamaker, of the U. S. Cruiser Minneapolis, spent Monday in town with friends. He is home for 20 days, and leaves the latter part of the week for his ship, which is engaged in locating some wrecks on the coast of Virginia and North Carolina. It will be remembered that this young Lexington sailor favored the Dispatch with several communications while on a cruiser in the Mediterranean Sea, from which he was able to visit points in southern Europe and northern Africa. He is chief of the mechanical department of this battleship, and we are proud of the record he is making.

Made a Good Officer.

Mr. Reid L. Keisler, of Gilbert, who for several years has been the efficient Chairman of the County Board of Control, while in town Thursday called in to see us. When his present term is up Mr. Keisler will retire from the Board with a clear record and a clear balance sheet. In Lexington county the management of the dispensary has been clear and honest and without charges to the contrary—contributing to the road and bridge funds handsomely. We are sorry to lose as good a man as Mr. Keisler from this important position.

Notice Taxpayers.

Treasurer F. W. Shesly is not so busy now as he was a few days ago. The failure on the part of taxpayers to add the 1 per cent. penalty for this month is giving him considerable trouble where taxes are received by mail.
When remitting you should remember that 1 per cent. is added to each dollar for the month of January; 2 per cent. for February and 7 per cent. after March 1st until the books close.

For Sale.

15 horse power engine and 25 horse power boiler.
Alfred J. Fox.

NEW YEAR'S GREETING:

We return our thanks to our customers during the year past, and wish them a successful and prosperous incoming year.

We will be pleased to continue to serve our customers, and will promise them fair and courteous treatment.

A Family Article.
It was in a large public school. "Mary, you must throw away that chewing gum. I cannot stand it any longer!" exclaimed the teacher to a little ragged, dark skinned girl of foreign extraction.
The chewing ceased. A short time afterward, however, Mary, with thoughts intent upon something else, forgot, and the chewing began vigorously again.
"Mary, didn't I tell you to throw away your chewing gum? Bring it to me!"
Mary hesitatingly started for the desk, but as she reached it burst out sobbing.
"Please, ma'am, it belongs to Aunt Hattie, and if I don't give it back to her tonight she'll lick me!"—Judge.

A Wise Young Man.

"Say, old fellow, how do you manage to kiss a girl when the chaperon is right close by?"
"Why, by kissing the chaperon first."

FOR COAL, COKE OR WOOD FUEL.

The very best stove that can be had is none too good for you. Next in importance to the home itself comes the stove; for no article made and sold adds so much to

THE COMFORT OF THE HOME
as a thoroughly reliable Cooking Apparatus. Used on an average of three hours per day for three hundred and sixty-five days of every year it is the constant companion of the housewife and will undoubtedly have its influence upon her disposition.

IT IS MY CLAIM
that there is no Range offered to the American people that is better than the

"ECONOMIST,"
no matter what the cost of it may be. It will do anything that any other Steel Range will do; it will last as long as any other. It cost less than its competitors and but little more than trashy imitations which are not worth the room they occupy.

SATISFACTION GUARANTEED
to every user of the Economist Wrought Steel Range.
Write me a postal card, it will bring to you my new and handsomely illustrated catalog showing anything and everything that you may need in Stoves, Ranges and heaters and the lowest prices that good goods can be sold.
