Cured Hay Fever and Summer Cold

A. J. Nusbaum, Batesville, Indiana, writes: "Last year I suffered for three months with a summer cold so distressing that it interfered with my business. I had many of the symptoms of hay fever, and a doctor's prescription did not reach my case, and I took several medicines which seemed to only aggravate my case."

Clemson is Crowded.

The fourteenth annual session of Clemson college opened Wednesday morning. Clemson is crowded, as usual. Nearly seven hundred applications for admission have been accepted, which means that making allowances for those who do not come after applying and for the return home of some who do not succeed in passing the entrance examinations, there will be in attendance when the work of the session gets under way about 630 students.

Of the total number accepted, 423 are old students, a larger proportion than formerly. The present senior and junior classes are the largest in the history of the college, and the prospects are that next June will see the largest graduating class ever turned out from Clemson.
