GOOD BYE BOOZE.

Prohibitionists Win in Chesterfield Election by Heavy Majority—Church Bells Told.

Cheraw, Aug. 13.—All indications point to a victory for the anti-dispensaryites in the election held in Chesterfield today on the question of dispensary or no dispensary. There are twenty boxes in the county and out of these seventeen have been heard from, with the following votes reported: 490 against and 188 for, a total of 669. Three small boxes have not been heard from, but they will not materially change the result. The dispensary people will at once serve notice of a contest. Hon. W. P. Pollock, formerly a strong dispensary leader in the House of Representatives, has been employed by the dispensary faction to take charge of the contest, and he will leave Cheraw tonight for Columbia where he will file his protest. The side he represents claim that the election was illegal in every particular—that the boxes were not properly labelled, that citizens not qualified electors were allowed to vote; that some registered voters were not allowed to vote and some non-registered voters were allowed to vote.

Between 10 and 11 o'clock this morning the church bells in Cheraw and some through the county were tolled to signify the passing of the dispensary.

A Little Boy Tells All He Knows.

"Girls is a queer kind of varmint," wrote the little boy at school who had been ordered to write an essay on girls. "Girls is the only thing that has their own way every time. Girls is of several thousand kinds, and sometimes one girl can be like several thousand other girls, if she wants you to do anything."

"Girls is all alike one way—they are all like cats. If you rub 'em the right way of the hair they'll purr and look sweet at you, but if you rub 'em the wrong way they'll claw you. S'long as you let a girl have her own way she's nice and sweet; but just cross her, and she'll spit at you worse than a cat."

"Girls is also like mules—they're headstrong. If a girl doesn't want to believe anything, you can't make her.

If she knows it's so she won't say so. Girls is little women, if they're good; and if they ain't good then nor when they get big, they're vixens—that's what father said mama was once, when she chased him round the kitchen with a red-hot poker, 'cause she was mad at him.

"Brother Joe says he doesn't like big girls, but he does like little ones; and when I saw him kissing Jennie Jones last Sunday, and told him what he'd said he said he was biting her, 'cause he didn't like her. I think he hurt her, for she hollered and ran, and there was a big red spot over both of her cheeks."

"This is all I know about girls, and father says the less I know about 'em the better off I am."

Sat on Tack and Spoke.

Utica, N. Y., Aug. 15.—That a man may quickly recover his lost speech by sitting on a tack was illustrated last night in the case of Edward Cox, of Williamstown, who found the painful experience a blessing in disguise. Months ago he suffered a stroke of paralysis that left him speechless. The doctors thought a blood clot had formed near the brain and they said that Mr. Cox would never recover the use of his speech. A carpet tack did what medical science failed to do—brought back the lost voice of Mr. Cox and gave him speech as fluent as in the days before he was stricken dumb. The tack was on a chair, point upwards, and Mr. Cox sat upon it last night with such force that the surprise and pain brought to his lips a forceful exclamation. A moment afterwards his wrath changed to joy when he discovered he had regained the power of speech. The doctors say it is a permanent cure.

The Limit of Life.

The most eminent medical scientists are unanimous in the conclusion that the generally accepted limitation of human life is many years below the attainment possible with the advanced knowledge of which the race is now possessed. The critical period, that determines its duration, seems to be between 30 and 60; the proper care of the body during this decade cannot be too strongly urged; carelessness, the being fatal to longevity. Nature's best helper after 50 is Electric Bitters, the scientific tonic medicine that revitalizes every organ of the body. Guaranteed by the Kaufmann Drug Co., and Derrick's Drug Store. 50c.

Labor Problem Serious Matter in Chester.

Chester, Aug. 15.—The matter of locating immigrants in the county has not been given up. All here do not believe in immigration; in fact, some of our leading and best citizens are opposed to this, but, on the other hand, there are many who believe that in immigration lies the salvation of the labor question. Farmers who have been questioned about the subject assert that the matter of labor to work the farms is becoming a serious one.

A prominent farmer of another county who was here on business yesterday said that he thought the legislature ought to take up the question and see if some remedy couldn't be provided. He stated that he had been in the farming business for years and that the labor situation was worse now than it had ever been in his experience. He remarked that he had visited several of the towns lately and that he had noticed many idle negroes loafing about. He commented on the fact that there appeared to be few idle persons about Chester and was told that the vagrant law was strictly enforced here and that persons without visible means of support were given work on the county roads.—The State.

Nearly every one likes a fine hair dressing. Something to make the hair more manageable; to keep it from being too rough, or from splitting at the ends. Something, too, that will feed the hair at the same time, a regular hair-food. Well-fed hair will be strong, and will remain where it belongs—on the head, not on the comb!

Smith Brothers Mill Burned.

Last Wednesday night the lumber plant of Smith Brothers, at Barrs, was totally destroyed by fire. The blaze was discovered about midnight and had gained such headway that it was impossible to save anything, except some lumber that was scattered over the grounds, all of the machinery and buildings being entirely destroyed. It is supposed that the fire caught from the fire box of the engine. The loss is estimated at about \$3,500, with but little insurance.
