

Mineral Spring Happenings.

To the Editor of The Dispatch:
 Corn crops in this section are fine. Cotton is opening very rapidly on account of the hot days. Peas and potatoes are doing fairly well.

We regret to learn that Miss Barbara Shull is confined to her bed with typhoid fever and hope for her a speedy recovery.

Mr. Andrew Mathias spent last week at the Jamestown exposition and reports a fine time.

A number of young people of this section spent Sunday at Tybee.

Mr. Charlie Cromer, who has been spending his summer vacation at home, has returned to Lenoir College, Hickory, N. C.

Mr. M. K. Kamminer is all smiles—it's another girl.

Messrs. Johnnie Sox, Lester Miller and Arthur Roof, attended Children's Day at St. Matthew's church last Saturday.

Orange buds will soon open wide in this section.

Young men, remember the Sabbath day and keep it holy more in the future than you have in the past at the Mineral Spring Sunday afternoons. COUNTRY BOY.

Sept. 6.

Oak Grove Items.

To the Editor of The Dispatch:
 Cotton picking is now the order of the day.

A large crowd of our young people attended the picnic at Mr. Franklin Keister's last Saturday and reports a fine time.

Rev. Wessinger and wife spent Saturday night with the family of Mr. G. W. Price, on Route 2.

Mr. Thomas Crout and sister, Miss Leona, visited their uncle, Mr. P. H. Craps, Sunday last.

A large crowd attended services at St. Paul's church Sunday.

Mr. and Mrs. Hampton Hendrix, of Leesville, visited the family of Mr. W. T. Craps last Sunday.

Mr. E. Crout and sister, Miss Effie, visited Misses Vero and Winnie Craps Saturday and Sunday.

BLUE EYE.

\$100 Reward, \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Rats Eat Dead Man's Nose.

Greenville, Sept. 4.—While making an excavation yesterday for the McGee Manufacturing Company near this city Pink Reeder, a negro, was caught by caving earth and smothered to death. The negro's body was removed during the night and placed in a vacant house to be prepared for burial. When an undertaker examined it this morning he found that rats had attacked the corpse and eaten off the nose. The undertaker went to work and made a nose of plaster of paris, which he fitted in its proper place and painted black. The dead negro's relatives will never know of the mutilation done by the rats.

Help Wanted.

She bought a device to mix the bread, And one to stir the cake;
 A fireless stove and a coffee-machine And one to broil the steak.
 And into her kitchen, so up-to-date, It's a pleasure, indeed, to look;
 But the family's boarding while she seeks
 A machinist who can cook.

Had Tetter for Thirty Years.

I have suffered with tetter for thirty years and have tried almost countless remedies with little, if any, relief. Three boxes of Chamberlain's Salve cured me. It was a torture. It breaks out a little sometimes, but nothing to what it used to do.—D. H. Beach, Midland City, Ala. Chamberlain's Salve is for sale by Kaufmann Drug Co.

MOTHERHOOD

MRS. JAMES CHESTER

The first requisite of a good mother is good health, and the experience of maternity should not be approached without careful physical preparation, as a woman who is in good physical condition transmits to her children the blessings of a good constitution.

Preparation for healthy maternity is accomplished by Lydia E. Pinkham's Vegetable Compound, which is made from native roots and herbs, more successfully than by any other medicine because it gives tone and strength to the entire feminine organism, curing displacements, ulceration and inflammation, and the result is less suffering and more children healthy at birth. For more than thirty years

Lydia E. Pinkham's Vegetable Compound

has been the standby of American mothers in preparing for childbirth. Note what Mrs. James Chester, of 427 W. 35th St., New York says in this letter:—Dear Mrs. Pinkham:—“I wish every expectant mother knew about Lydia E. Pinkham's Vegetable Compound. A neighbor who had learned of its great value at this trying period of a woman's life urged me to try it and I did so, and I cannot say enough in regard to the good it did me. I recovered quickly and am in the best of health now.”

Lydia E. Pinkham's Vegetable Compound is certainly a successful remedy for the peculiar weaknesses and ailments of women.

It has cured almost every form of Female Complaints, Dragging Sensations, Weak Back, Falling and Displacements, Inflammation, Ulcerations and Organic Diseases of Women and is invaluable in preparing for Childbirth and during the Change of Life.

Mrs. Pinkham's Standing Invitation to Women

Women suffering from any form of female weakness are invited to write Mrs. Pinkham, at Lynn, Mass. Her advice is free.

She Was Forced to Ride in a "Jim Crow" Car.

Suffolk, Va., Sept. 5.—A case said to be without precedent in any court has been instituted here, when Mrs. Rosa Stone, white, entered suit for \$10,000 damages against the Norfolk and Western for being compelled to ride in a "jim crow" car among the negroes. Mrs. Stone, being badly tanned, was taken for a negress.

Chamberlain's Cough Remedy One of the Best on the Market.

For many years Chamberlain's Cough Remedy has constantly gained in favor and popularity until it is now one of the most staple medicines in use and has an enormous sale. It is intended especially for acute throat and lung diseases, such as coughs, colds and croup, and can always be depended upon. It is pleasant and safe to take and is undoubtedly the best in the market for the purposes for which it is intended. Sold by Kaufmann Drug Co.

It is thought that the North Carolina railroad cases will be argued in the United States supreme court in October. Nearly all the phases of the rate question in the different states are involved in these cases.

Keeping Sweet Potatoes Sound.

Keeping sweet potatoes is one of those things that require exactness in carrying out details. The loss of sweet potatoes results from three things—digging when the ground is wet and waiting too long to dig; covering too quickly and not allowing the potatoes to undergo the sweating process and becoming thoroughly dry, and, insufficient covering and allowing the hills or banks to become wet from winter rains. We would build an open shed, covering it rain-proof, and protecting it on north and eastern sides, so as to prevent water from blowing under when we have the wind with the rain. Then we would bank the potatoes in straw, corn stalks and earth. We would dig a layer of pine straw and put potatoes in hill as we wanted them. Cover with stalks and straw, and leave until the cold weather comes and they had sweated out.

We would not cover well up with earth until December 15th. So much for banking; now as to digging. Do not wait after the first frost bites the vines—dig before a rain comes while the earth is dry. We do not know why it is, but we have never had good luck with potatoes that were left out in the field undug, after the frost had killed the vines and a rain or two had thoroughly wet the land.

Watch your hills, dryness and good ventilation are essentials to keeping potatoes, and with these you will have but little trouble. The majority of farmers think any old plank or boards sufficient to make a covering for potatoes; but you want your shelter absolutely rain-proof.—Southern Cultivator.
