**Card of Thanks.**

To the friends who came to us in our hour of trouble, and contributed all that human kindness could suggest, to help and comfort, we return most heartfelt thanks, and although such devoted friendship cannot remove the sad memories that linger around our vacant chair, brings into view the brightest side of humanity, and throws the pure light of an unselfish friendship into a darkened home. May the day be far distant when those friends who gathered around us will need similar attention, but when the time comes may they receive the same full measure of generous aid and tender sympathy they brought to our home when death was an inmate there.

**Lexington County Fair.**

With the largest entry of exhibits in its history the annual county fair of the Lexington County Fair Association was opened yesterday under the most favorable auspices. Hundreds of people visited the big event yesterday and still larger crowds are expected to-day and to-morrow.

The live stock exhibits this year out-class all previous records. There have always been a large number of entries at the former fairs, but the little this year include classes that are being exhibited for the first time. This feature of the fair will bring the largest number of cattle men and visitors ever seen at the county fair. The attendance for the first day was all that could be desired.

The field crop exhibits are up to the usual high mark despite the fact that this has been a poor crop year with most of the farmers. And so it is with the other departments.

Everybody is merry and the town is full of visitors. Signs of the fair is displayed on every hand, and the opening day gives promise that the other days will be above the average.

**Gun Was Loaded.**

Fernandina, October 17.—A terrible tragedy was enacted here late to-day when Christina Kelly, the eight-year old daughter of Mr and Mrs John Kelly was accidentally shot by Bernard Cane, a lad of 14 years death resulting immediately.

Young Cane had just returned from a hunting trip and was in front of his home, with several children gathered around him. He playfully raised his gun which he thought to be unloaded when the trigger was accidentally pulled, emptying the entire load of shot in the body of the little girl who dropped dead without even a moan. The lad realized what he had done and jumped upon a bicycle in the hope of calling a physician in time to give the child assistance, not knowing that she was already dead.

North Carolina farmers are getting fair prices for their tobacco this year.

**Scott's Emulsion**

and is on every bottle of it sold in the world—which amounts to several millions yearly.

Why—Because it has made so many sickly children strong and well—given health and rosy cheeks to so many pale, anaemic girls and restored to health so many thousands in the first stages of Consumption.
