

Honesty in Jewelry

"If it came from Sentz's, you know it's all right," is what one of our customers remarked to another the other day.

When you buy Jewelry, you generally have to take the "Jeweler's word for it" whether it is good or not.

That's just where our reputation for honesty and fair dealing counts.

And furthermore, we will always give you your money back and ask no questions any time you are dissatisfied with a purchase.

Special attention to mail orders.

How Typhoid Is Spread By Flies.

That the typhoid germ is carried by flies has been abundantly proved. Only passing observation in following a typhoid epidemic in a family or county neighborhood is necessary in order to locate the source of the scourge.

A painstaking, conscientious housewife who, herself, was a victim of a family epidemic some time ago, gave me a bit of history bearing upon this point: A brother, returning from a distant city, developed fever shortly after his return. An old colored woman was employed to care for the patient. A door from the sick room led to a porch, which also furnished entrance to the dining room, quite a usual arrangement in country homes. Vessels used in the sick room were left to stand for hours without attention upon this porch. Flies swarmed here by hundreds, finding easy access at once to the dining room. Within three weeks four more cases of typhoid developed in this household. For a period of eight months there was one or more members of the family ill with fever. With the type of service such as this untrained, ignorant negro woman was capable of giving, with the waste from the sick room emptied into an open vault, easy of access to flies, and located in such a way as to render water contamination almost a certainty, there is every reason to expect a return of the epidemic to this family at any time.

To read the history of a typhoid epidemic in any and every section of this land is to recognize the housefly as the chief factor in the spread of the disease.—Mrs. F. L. Stevens, in Raleigh (N. C.) Progressive Farmer and Gazette.

Mr. Isaac Cook, Commander of above Post, Kewanee, Ill., writes: "For a long time I was bothered with backache and pains across my kidneys. About two months ago I started taking Foley Kidney Pills and soon saw they were doing just as claimed. I kept on taking them and now I am free from backache, and the painful bladder misery is all gone. I like Foley Kidney Pills so well that I have told many of my friends and comrades about them and shall recommend them at every opportunity." All Druggists of Lexington—Henry Drug Store Chapin S. C.

Want to Marry.

Says an elderly man in his farmers garb, "I want a little piece in your paper: Wanted a woman who can cook, wash, iron, milk four cows and manage a market wagon." "Shall I state wages?" "Wages nothin'," "I want to marry her." Man wants but little here below.—Engelfield Chronical.

A Good Suggestion.

This is the season of the year when many people think they have the privilege of plowing up the public roads, to the great discomfort and inconvenience of the traveling public. If some of these violators of the law were prosecuted and heavily fined; it would put a stop to the practice. It is against the law to plow into the public roads, and our officials should take the matter in hand and prosecute those who are guilty of such a reprehensible practice.—Bamburg Herald.

Not Sorry For Blunder

"If my friends hadn't blundered in thinking I was a doomed victim of consumption, I might not be alive now," writes D. T. Sanders, of Harfordsburg, Ky. "but for years they saw every attempt to cure a lung-racking cough fail. At last I tried Dr. King's New Discovery. The effect was wonderful. It soon stopped the cough and I am now in better health than I have had for years. This wonderful life-saver is an unrivaled remedy for coughs, colds, lagrippe, asthma, croup, hemorrhages, whooping cough or weak lungs. 50c, \$1.00. Trial bottle free. Girl Swallows Needle.

At Taylor, Tex.—A needle that Lillian Walther, a 5-year-old girl of the Sandoval community swallowed two years ago, was extracted by surgeons from her spinal column. The needle gave the girl no pain until last week.

Tuesday she fell from the porch at her home. Later she complained of severe pains in her back and it was thought she had fractured her spinal column. Examination showed the needle sticking in her spine.

It is thought the needle worked through the girl's body and in the fall last week was driven into the spine. The needle was extracted and the girl is doing well.

Railroad Crossing Law.

Commission Calls Attention to Changes By Recent Acts.

The railroad commission has received many queries as to the keeping up of railroad crossings. Reference to the recent acts of the legislature shows that the law in regard to the duty of overseers at railroad crossings was amended.

The act follows:

Section 1. Be it enacted by the general assembly of the state of South Carolina, that section 1,378, of volume 1, code of laws of South Carolina, 1902, be, and the same is hereby amended by adding between the word "company" and the word "and" on line 4 of said section, the following: "And when the track of a railway company now or hereafter crosses a public road shall cause such railway company to construct and maintain the approaches to said grade crossings on a grade not to exceed 5 per cent, and that the highway shall be on a level grade for not less than twelve feet on either side of the centre line of said railway," so that said section, when so amended, shall read as follows:

Section 1,378. It shall be the further duty of such overseer to cause each railroad company to construct and keep in good repair the roadbed of all public roads across the roadbed of said railroad company, and when the track of a railway company now or hereafter crosses a public road shall cause such railroad company to construct and maintain the approaches to said grade crossings on a grade not to exceed 5 per cent, and that the highway shall be on a level grade for not less than twelve feet on either side of the central line of said railway; and if any railroad company, being duly warned by the overseer of the proper district, by leaving a written notice with any station agent of said railroad company, shall neglect or refuse to construct or repair such roadbed to the acceptance of the overseer, shall forfeit not exceeding \$50 nor less than \$30, to be recovered by an action at the suit of the township or county board of commissioners before a magistrate of the county, and the money so collected shall be paid by the magistrate collecting to the county treasurer, and the money so paid over shall become a part of the county road fund; and every five days such railroad company, after being duly notified, shall neglect or refuse to construct or repair said road, shall be deemed an additional offence against the provisions of this section.

Approved the 25th day of February, A. D. 1910.
