Save the Pines.

The United States department of agriculture has issued the following warning:

The Southern pine beetle killed an enormous amount of pine throughout the South last summer, and measures for its control are being carried on by a large number of timber owners in the South.

It will, in all probability, kill much more pine this summer in localities where measures are not being taken for its control.

There are no beetles in the dead trees from which the needles have fallen.

The beetles are now spending the winter in the bark of the dying trees from which the needles have not yet fallen. This bark must be destroyed by burning as cord wood, or sawing up the trees as lumber and burning the slabs with the bark on, or stripping the bark from the main trunks of the trees and burning it. Tops and lapwood may be disregarded.

The work should be completed before May 1st, unless otherwise recommended.

Do it now and save the pine.

Sweethearts Die Together

Apparently fulfilling a suicide agreement, Adolph Gerlink, a carpenter, and his sweetheart, Francis Soucek, went to a room in the home of Gerlink's sister in Chicago and turned on the gas. They were found dead in each other's arms, clad in the garments they had worn to a dance.
