

# POTASH

The corn crop fooled lots of farmers last year. Many fields looked good but fell down on the yield. This was owing to a lack of available Potash, for Potash is primarily a producer of grain. Your corn must have enough quickly available Potash to produce well-filled ears as well as stalks. A corn fertilizer should contain at least 8% Potash—better 10%—no matter in what form the fertilizer is used. Rainfall, 75 to 100 lbs. per acre, drilled in with the seed, will keep away cutworms and root lice. If your dealer can't furnish brands rich enough in Potash and won't carry Potash salts so you can supplement your stable manure or strengthen the brands he does carry, write to us for prices. We will sell direct in any amount from a 20-lb. bag on. Write for free book of fertilizer formulas and directions.

Opposite Post Office

## April Snow Of 1849.

Capt. Charles Petty, in Spartanburg Journal. A request has been made for information concerning the snow which fell Sunday, April 15, 1849. February and March had been quite warm. Trees began to bud and bloom early in March. By April 15 the forest leaves were half size or larger. Peaches were about the size of medium size marbles. English peas were in full bloom and gardeners were about ready to have the first mess. Many farmers had given their early corn a plowing. The boys had discarded their old shoes and were going barefooted. Thermometers were scarce in that day and there is no record of the temperature. The snow began in this county 7 to 8 o'clock in the morning and continued until about 1 in the afternoon, when it cleared off. The general estimate was that if the snow had not melted it would have been 6 inches deep. Next morning the ground was frozen hard and the melted snow had turned to ice. It continued cold for several days. Early wheat was heading, but it made a pretty fair crop. Many farmers planted their corn over. All garden vegetables were killed. There was a general hustling for garden seed. Since that date on several occasions there has been a very light fall of sleet or snow in April, but there has not been such a spell as that of 1849.

Dan. J. Joyce, Danville, Va., is so glad to report consumption and regained his health, that he writes about it to the benefit of others. "I had a cough which hung on for two years when I began using Foley's Honey and Tar Compound. I kept on until the cough finally left me and I gained in weight from 113 to 185 pounds. In two years I have grown strong and healthy, all from the use of Foley's Honey and Tar Compound, which cured me." Kaufmann Drug Co.

Ratchford, the 8-year-old son of Mr. and Mrs. Ira C. Boland of Clinton, was run over by a negro boy on a bicycle and his right leg was broken just above the ankle. The negro was fined \$10 for reckless riding.

## The Danger After Grip

Lies often in a run-down system. Weakness, nervousness, lack of appetite, energy and ambition, with disordered liver and kidneys often follow an attack of this wretched disease. The greatest need then is Electric Bitters, the glorious tonic, blood purifier and regulator of stomach, liver and kidneys. Thousands have proved that they wonderfully strengthen the nerves, build up the system and restore to health and good spirits after an attack of Grip. If suffering, try them. Only 50 cents. Sold and perfect satisfaction guaranteed by All Druggists.

The three-year-term of Capt. Marcus B. Stokes, commandant at Clemson College, ends on May 2nd, but he had been granted permission by the war department to remain until June 15th, when he will join his command, the Tenth Infantry, now stationed in Panama.

Don't be surprised if you have an attack of rheumatism this spring. Just rub the affected parts freely with Chamberlain's Liniment and it will soon disappear. Sold by All Dealers.

J. Y. Bryson, president of the Bank at Enoree, Spartanburg county, has been arrested for a technical violation of the State banking law, in lending more than two per cent of the capital to one man.
