### Paint Now

If you ought to have painted last year and waited for paint to come down, how much do you think you made?

You'll buy an extra gallon this year. There's \$5 or \$6 for paint and labor. You think you won't, but you will; you can't stretch paint.

It is always so: the longer you wait, the more paint and wages. Besides, what paint is for. What is it for?
