

## "I Am Well"

writes Mrs. L. R. Barker, of Bud, Ky., "and can do all my housework. For years I suffered with such pains, I could scarcely stand on my feet. After three different doctors had failed to help me, I gave Cardui a trial. Now, I feel like a new woman."

Take **CARDUI**

### The Woman's Tonic

A woman's health depends so much upon her delicate organs, that the least trouble there affects her whole system. It is the little things that count, in a woman's life and health. If you suffer from any of the aches and pains, due to womanly weakness, take Cardui at once, and avoid more serious troubles. We urge you to try it. Begin today.

### There Will be Early Frost

According to an old tradition there will be frost sixty days after the first fog in August. There was a heavy fog on Friday morning, August 2, and if the sign comes true then there will be frost about the first or second of October. However, it is said that this sign is like all other signs, never infallible. In commenting on signs the Augusta Herald says:

A ring around the moon, lightning in the north and northwest at night and other signs are said to indicate rain for the next day, but all signs fail sometimes in dry weather. A cotton man said Friday morning that if a killing frost would come sixty days after the first fog in August cotton should go up a cent per pound on the strength of it.

This year's crop will be later and the farmers want frost to come as late in the fall as possible. An early frost would prevent great quantities of cotton bolls from maturing, and with a late crop there must necessarily be a late fall for an even fair yield will be far short of what it was last year and as the farmers are facing the prospect of only a moderate yield, and in many instances, short crop, they want the frost to stay away as late as possible in order to let all the cotton bolls mature that are on the plant. —Bamberg Herald.
