Something Every Day.

Something each day—a smile,
It is not much to give,
And the little gifts of life
Make sweet the days we live.
The world has weary hearts
That we can bless and cheer,
And a smile for every day.
Makes sunshine all the year.

Something each day—a word,
We cannot know its power;
It grows in fruitfulness
As grows the gentle flower.
What comfort it may bring,
Where all is dark and drear;
For a kind word every day
Makes blessed all the year.

Something each day—a thought,
Unselfish, good and true,
That aids another's need,
While we our way pursue;
That seeks to lighten hearts,
That leads to pathways clear;
For a helpful thought each day
Makes happy all the year.

Something each day—a deed,
Of kindness and of good,
To link in closer bonds
All human brotherhood.
Oh, thus the heavenly will
We all may do while here;
For a good deed every day
Makes blessed all the year.

Red Spider Bulletins

I have a number of bulletins on the red spider and its remedies by Mr. E. A. McGregor, scientific assistant of the United States department of agriculture, which I will take pleasure in giving to all those who will call at the dispatch office. The bulletin contains the most valuable information, telling as it does, the preventative and the remedy.

D. R. Haltiwanger.

The Sewing Machine THE CAUSE!

All Factory Sewing Machines are placed right. They have the needle right straight in front of the center of the operator's body.

All Family sewing Machines (except the "Standard" Central Needle) have the needle placed 1-2 inches to the left of being directly in front of the center of the operator.

The Only Reason for the needle being 1-2 inches off center, which now sounds ridiculous and inhuman is—it was easier to build the machines that way, which resulted in the operator's comfort being utterly disregarded and their health protection badly neglected. Physicians have long recognized the sewing machine as the basic cause of more nervous and bodily disorders, peculiar to woman, than can be attributed to any other single origin. The ordinary sewing machine is a nerve and health annoyer—it is almost impossible to escape its danger and injurious influence if it be at all. The remedy—a Standard Central Needle Machine.
