## Some Good Reasons For Making the Home National Bank YOUR BANK

### FIRST:

Because its Resources of over \$250,000.00 afford the depositor ample security for his funds.

The National Banking law throws additional safeguards about the depositor, among which are semi-annual examinations of its accounts and securities by a National Bank Examiner, and five exhaustive reports of condition annually to the Comptroller of the Currency.

The management of this bank has always adhered to conservative policies, believing that the best interests of patrons are served by keeping on the safe side of every transaction.
