THE SWEETEST TIME O' YEAR.

It's getting time o' year just now when May swings into bloom, And all the peach and apple trees are reeking with perfume, A panoramic glory gilds the morning in the east, With an iridescent glamor of a mighty sumptuous feast.

The blackbird in the hollow and the robin in the tree, Are shouting hallelujahs up to heaven and to me; The forest trees are budding with a freshness rich and rare, And pronounce a benediction through the blossom-scented air.

There is something that is pleasing ev'ry minute of the day, When Maytime brings the blossoms out and flunts her banners gay, All the glories of the seasons in a single bunch appear For the blossoming of nature is the sweetest time of year.

It's a part of my religion I would like to have you know That a loving smile's an antidote for every human woe It's a trite and useful saying and its secret I'll impart, When your thoughts are with the flowers there's no winter in the heart.

Moderation is Urged.

San Francisco.—Cool-headedness and moderation were urged upon the Japanese residents of California at a mass meeting last night by Soruku Ebara, a member of the house of peers and of the government party and one of a commission sent to this state to investigate the landholding controversy.

The venerable statesman pointed out that it was the unanimous desire of the people of his country to reach a satisfactory settlement and it undoubtedly could be accomplished by peaceable means.

A man living at Auburn, New York, had a severe attack of kidney and bladder trouble. Being a working man, not wanting to lose time, he cured himself completely by using Foley Kidney Pills. A year later he says, "It is a pleasure to report that the cure was permanent." His name is J. A. Farmer. Harmon Drug Co. adv

You Prepare for Business: Why Not Prepare for Marriage?

In the June Woman's Home Companion a writer, on the subject of marriage, makes the following proposition: "Most girls go into marriage very little prepared for it. We prepare, it would seem, for every profession in which we hope to win success, except the most important one of all. We would not dare to take a responsible position in a business office without either knowledge or training to fit us for our task; yet, with neither, we assume the gravest responsibilities that a woman can assume, and confidently expect success and happiness. The thing is without parallel, I think, and stands by itself in folly and lack of common sense.

"And, having persuaded ourselves that our happiness will be secure, despite any unfitness and inadequacy of ours, how are we shaken and amazed and cast down and put into despair when that happiness fails and we sit before the weedy harvests of our mistakes. In all other matters we may be reasonable enough, and few of us but expect, in the general events and consequences of life, to gather figs only from fig trees and to find thorns and thistles only in their accustomed places; but in this event the natural laws of growth and consequence and all order and likelihood are to be set aside in our favor and we are to be permitted, we assume, to gather pomegranates from the most readily grown lettuces, and the choicest foreign fruits from the thorny plants of our most commonplace ignorances and follies."

A Thorough Test of Mastic Paint

Not many have the opportunity to make as thorough a test to determine paint value as did the Pacolet Cotton Mills, of South Carolina, whose letter we are reproducing.

But you can profit by their experience.

There is an element of chance in buying anything until you know it has stood the test.

MASTIC PAINT is the result of 40 years' paint study, and is the finest paint that money and brains can produce.

Is it any wonder it has always given better and longer service than any other paint, whether machine ground or mixed with a paddle?

When you buy MASTIC PAINT you find the formula on every can. IT'S PURE. It combines the greatest durability with reasonable cost.

If you are a paint user don't experiment with cheap, uncertain paint or hand mixed keg lead, and be disappointed.

GET MASTIC PAINT—the kind that lasts. We will furnish ample evidence of its superiority.

Gentlemen:
Confirming our conversation of yesterday, we beg to say that after building our village at New Holland, Pa., we experimented with various paints by painting ten houses each weatherboarded with lead leaf yellow pine of some half dozen various paints.
One section of ten houses we used lead and oil, the remaining thirty houses covered in ten lots each by the same painters we used paints most commonly used in this section of the country which are considered to be a test.
After eight years we find that the test cottages covered with "Mastic" stands better than any of the others even including lead and oil. We heartily endorse Mastic paint to any one who is a buyer.
Yours truly,

Can't Get Him Says Judge.

Solicitor Georg Bell Timmerman of Lexington, who is handling the matter of a requisition from Governor Blease to Governor Tener of Pennsylvania, for Joe Grant, a negro, wanted in Edgelfeld for the murder of a prominent white farmer in 1906, has addressed a letter to the attorney general, Thomas H. Peoples, to the effect that a judge of the court of appeals in Pennsylvania has refused to let this state have Grant.

Governor Tener granted the requisition, despite the pleas of the negro's attorneys, if their client were brought back to this state, he would be either burned or lynched. In their contention he quoted Governor Blease's speech in Richmond and the bill introduced by W. J. Ashley during the last session of the legislature, the purport of which is to legalize lynching for criminal assault, which was reported unfavorably and not considered. The negro then entered habeas corpus proceedings to retain his liberty.

Attorney General Peoples today instructed Solicitor Timmerman to press the matter to a conclusion as soon as possible and "get the defendant back to South Carolina before the courts of justice."
