**Try-County Fair**

**Surpasses Hopes**

In the exhibits of every department of the Tri-County Fair held at Batesburg last week far surpassed all previous efforts of its officers. The exhibits, both in value and number, far exceeded those of any former year. Practically every department was filled and some could not accommodate the entries.

A carnival furnished good attractions daily and a splendid brass band was on the ground to furnish the large crowd with music. The best fair yet was that of last week which reflects great credit to its officers.

**Avoid Sedative Cough Medicine.**

If you want to contribute directly to the occurrence of capillary bronchitis and pneumonia use cough medicine that contain codine, morphine, heroin and other sedatives when you have a cough or cold. An expectorate like Chamberlain's Cough Remedy is what is needed. That cleans out the culture beds or breeding places for the germs pneumonia and other germ diseases. That is why pneumonia never results from a cold when Chamberlain's Cough Remedy is used. It has a world wide reputation for its cures. It contains no morphine or other sedative.
