THE "MIND OF THE UNIVERSE," Boston, is not the most moral place in the universe; three single women died there lately in one week in the hands of a profession of impostors. For the Herald.

LISTEN, darling child, listen, Listen to my song; I have loved thee well, lanthe, I have loved thee long. Let me take this hand that trembles Like a timid dove, Let me hold it gently captive, Whilst I tell my love. Stop, my pretty, English maiden! Do not do away, Do not be so disdaining, Listen to my lay.

SPECIAL NOTICES.—THE STAY LAW having been removed, by those having the power to do so, and there being a great probability that many people will be distressed on account of debts made before the war, and that I may do something towards mitigating that distress, I make the following proposition to all those who will settle with me before the first of October next: First, those who owed me and were killed in the war, leaving families, I will settle with their Executors at one-half 2d, those that have been disabled, at a discount of one-fourth; 3d, with all that were in the war, at a discount of one eighth; 4th, with all others, by taking note that I can use in liquidation of my own indebtedness, or produce of any kind at the highest market prices.

H. H. BLEASE. P. S. I hope that all who are indebted to me will come forward and make some arrangement about these old matters immediately. You must not expect me to call on you, it is impossible for me to do every one; so after the time for the above compromise expires, you find yourself settling with the Sheriff, don't say that you were sued without proper notice. Those indebted to me in adjoining districts please take notice. May 23-20-45. H. H. B.
