PATENT
FOR WASHING "MADE EASY."
WASHING! WASHING! WASHING!
Accomplished without Boiling or Rubbing.
A Soap for Washing Clothes, the coarsest as well as the finest and most delicate fabrics, without Boiling or Rubbing; saving in the process, half the time, one third the Soap,
AND ALL THE FUEL.
The Best Soap ever Invented for Washing Purposes!
1. Best, because there is no fuel used.
2. Best, because it dispenses with the ordinary labor upon the wash-board.
3. Best, because a day's (ordinary) washing can be done in one half the time.
4. Best, because it takes but one third the Soap.
5. Best, because the dirtiest or coarsest garments or articles can be cleaned thoroughly in less than ten minutes.
6. Best, because the finest fabrics can be washed without a change of water, and bleached at the same time.
7. Best, because the ordinary bleaching is done away with.
8. Best, because to Machinery is used.
9. Best, because it contains nothing whatever to injure the most delicate fabrics.
10. Best, because it is cheaper and superior to any preparation now in use for cleaning Silver.
11. Best, because it is superior to every article in use for cleaning out or any other Glass ware, cold water being used there is no risk of breakage.
12. Best, because it is second to none for Toilet use, only wanting to be tried for proof.
13. Best, because as a hand soap for Mechanics, Iron workers and Printers, it is no equal.
14. Best, because it cleans the dirtiest grease, Oil, Bit or grease of any kind, can be removed without the slightest injury to prints or any color.
15. And Best, because the most delicate lady can accomplish a family washing in an incredibly short space of time, cleaner and whiter than can be done by the ordinary means of boiling and rubbing.

The Rural Southerner.
A Weekly Visitor
TO THE
FARM, WORKSHOP AND FAMILY CIRCLE.
It is proposed to publish at Columbia, as soon as a sufficient number of bona fide subscribers are sent in, a weekly AGRICULTURAL and FAMILY NEWSPAPER, under the above title. In this enterprise are engaged the best practical and scientific Agricultural writers in the State, while the Literary, News, Manufacturing, and religious departments will be under the control of the best Literary talent of the South. We shall also devote a space to the Mechanical Arts, which will be conducted by two of the best Mechanics in the South.
The necessity for such a work at this time is evident to all. Our change of labor necessarily involves changes in the whole industrial pursuits of the South. To arrive at the best and most remunerative kind and mode will require experiments and discussion, and in no other way can the people be so well informed on such matters than through the columns of a journal such as we propose to publish.
It will require 250 subscribers to insure the commencement of the enterprise. This number can be easily obtained if those who wish to sustain such a journal in the South will exert themselves among their friends.
We promise them a WEEKLY VISITOR equal in contents and typographical execution to any in America.
Price \$2 per annum, currency, or \$2 coin, to be paid 6 months in advance, on receipt of the first number.
