The Charleston Mercury. The above venerable journal, like a good old friend, after a lengthened absence, once more visits our sanctum. The introductory remarks of its editor are happily conceived and pertinent, and give an earnest of the dignity and consistency of the paper.

Personal. We had the pleasure last Saturday of meeting, for the first time, with the editor of the Clinton True Witness. Brother Jacobs is an amiable and agreeable gentleman. Long live the Witness and its able editor.

That distinguished soldier and courtly gentleman, Gen. M. L. Bonham, graced our office with his presence last week. Gov. Bonham is a member of the Legislature from our sister District of Edgefield.

Fashion Books and the Book Store.

Messrs. Duffie & Chapman will accept our thanks for copies of the Ladies' fashion books—Bon Ton; Petit Messenger; Goddy's and Peterson's, all of them elegant table companions, and which no lady can, we imagine, will do without. Bon Ton and Messenger are particularly attractive, but all of them are excellent. They will furnish Peterson's Magazine at \$3; Goddy's Lady's Book at \$3 per year, Bon Ton (with patterns already cut) at \$7; and Petit Messenger, (also cut patterns) at \$5 per annum. If any thing is wanted in the Book and Magazine line, give your orders to Duffie & Chapman.

Time's Changes

We are sorry to learn that the G. & C. R. R. has lost the services of several of its public servants. Mr. J. B. Browne, master machinist, is no longer connected with the road. Mr. A. C. Small, master of the carpenter shops has accepted a situation on the S. C. R. R., at Hamburg. Mr. Small is an experienced mechanic—we recently witnessed the evolutions of a Dodworth's plainer, put up almost entirely by himself. The patent for which having run out. Mr. S. made the drawings, patterns, and the work. It is a handsome piece of mechanism and works charmingly. This is another evidence of Southern skill and ability. Mr. L. McCoy and Mr. Beckman, clerk and store keeper of the Helena workshops, are no longer attaches of the road. Previous to transferring their papers, the books and accounts were examined by the Secretary of the road and found to be correct. We regret that these gentlemen have left the road, but changes belong to time. We wish them well.

All Hail, Kentucky!

The Louisville Courier says that Kentucky has an immense surplus of corn and meat this season, and she intends to give liberally of them to her suffering brethren in the South. For this purpose societies are being organized throughout the State, and before the close of the year we hope to hear of one in every county. We also learn from the Courier, that the Louisville, Frankfort and Lexington Railroad Company, announce that they will transport over their roads, free of charge, all contributions for the destitute poor of the South. All of which is creditable to our more favored sister State, and for which she will have the gratitude of the South.

An editor in Illinois recently saw a patent clothes washer.

It was in the shape of a wheelbarrow. The revolutions of the wheel put in motion a crank that moved a plunger that pounded the clothes. The body of the box was mounted where the load is in a wheelbarrow. On the top of the box was a wringer. A lady can put her clothes into her machine, pick it up, and go out calling; the longer her list of friends the further she will have to wheel her burden and the better her clothes will be washed.

MEETING OF STATE COURTS.—The Court of Appeals will meet at Columbia on Tuesday, the 27th inst., and applications for admission to the bar will be examined on Wednesday, the 28th inst.

Appeals from Charleston will be first heard, and from the country circuits in the following order, to wit: The western, northern, middle, eastern and southern circuits successively. The Court of Errors will assemble on Thursday, 29th inst.—Marion Star.

An extensive fire in Paris last month was instantly extinguished by the bursting of three bottles of sulphuric ether, the contents of which mixed with the atmospheric air, put an end to the combustion.

LOCAL ITEMS.

ANOTHER FIRE.—About 7 o'clock on Friday evening last, an alarm of fire was given and found to proceed from a stable on Mr. Thos. Poyninger's premises. The building being large, it was used in the various capacities of stable, barn and work-shop, and contained one horse and mule, corn and fodder, besides a valuable lot of dressed plank, all of which with the exception of the mule (which fortunately succeeded in making a timely escape, but seriously scorched) were destroyed. Happening so early in the night, it proved the salvation of the contiguous houses, as our citizens promptly rushed to the spot, and by the most determined and vigorous exertions, prevented the spread of the destructive element. Never have we seen men work better, and with such limited appliances. The freedmen deserve much praise for the handsome manner in which they behaved and labored to stop the fire. Mr. Poyninger's loss is heavy, as in addition to the building and its contents, including his valuable mare, some 40,000 feet of plank, the most of it outside, were also destroyed. Much sympathy is felt for him. The fire it is believed was the work of an incendiary.

THE NEWBERRY COLLEGE.—This Institution, it is not perhaps generally known, is open for the reception of students. Its claims on the community as a means of education are important and ought not to be overlooked. The people of Newberry particularly should feel a just pride in having such an institution in their District, as well as the State at large; but it is now laboring under pecuniary embarrassment, from the fact of the non-payment of many of its Scholarship Bonds, and the difficulties incident to the war; and an appeal is earnestly made that these be now paid, either in full or in part, or where that cannot be done, the interest even will be acceptable, and afford such material relief, as will enable the Board of Trustees to increase its usefulness. Without means it cannot be kept going. Surely the holders of these bonds will not suffer the Newberry College to die a lingering death. The Rev. T. S. Boinest, Treasurer of the Board will be in town on Sunday, and will be pleased to receive any and all amounts which may be handed him.

THE FREE DISTRIBUTION.—Not of valuable jewelry, books, or ornaments of virtue and art, but of the stuff which inebriates and makes mad, on Friday night after the fire, was wit'out doubt the prompting of a generous feeling, a happy sense of relief that the donor had escaped a burning. Hence the offer to supply all workers, without respect to color, to come and drink. It was generous and kind, and appreciative of the material assistance afforded, but its effects unfortunately were bad. Till a very late hour of the night, in fact till towards morning, bands of intoxicated men, howling, swearing, prowled the streets, in our immediate vicinity at any rate, making night hideous with noise and blasphemy. In well regulated communities this is never allowed, citizens are not suffered to be disturbed in their peaceful slumbers. If men, black or white, make beasts of themselves, they should be made to hunt their holes at a seasonable hour.

BARGAINS.—Public attention is directed to the favorable opportunity now offered by Mr. Foot, who will sell all the various goods at the corner, known as the millinery store, regardless of cost. There need be no apprehension that this is a take in announcement, merely to attract attention, but a veritable fact. Mr. Foot is determined to sell this stock of goods, of which he is and has been for several months the sole owner, at very low prices. His object is to close out the concern, which has been a losing one to him, therefore the prices will be put down to the lowest figure. Ladies and all others in search of bargains in millinery and dry goods, should avail themselves at once of this rare chance; and gentlemen in want of clothing, boots and shoes can have their wants supplied cheaply. Try Mr. Foot, and be convinced.

BRAN & TAYLOR'S Buggy and Carriage Factory, near the Depot, will be in order for work on the first of December. We have had the pleasure of examining specimen vehicles, manufactured by these gentlemen, and must pronounce them equal in finish, and superior in durability to those of Northern make, and cheerfully recommend them as finished workmen in all the practical details of their business. Another important feature is that the vehicles made and offered for sale are cheap, the secret of which is, that they are both energetic working men, and understand their business thoroughly, hence the very moderate price at which they can sell them. Any one wishing a fine vehicle would do well to call and examine their work.

We call especial attention to the card of Miss Laura E. Nance, agent for this District of the Holywood Bazaar.

Although the Ladies have taken this matter specially in charge, the Gentlemen of the district are requested to contribute.

Surely it needs "no appeal" to secure from a section that has given so much of courage, endurance and fame to the annals of the late war, to secure a contribution proportionate for the memory of the otherwise "unknown dead."

ATTRACTIVE.—The square or mall in front of our office is quite a feature now. At night, wagoners cast their tents, and build their cheerful fires, and the morn-

ing sun revels over a pleasing scene: Horses, mules, dogs, camp fires, little boys, big boys, men, wagons filled with the fleecy fabric, carts with beef, chickens, etc., etc. Old Newberry has not lost her fame and interest as a market.

T. F. HARMON'S—Bush river store is again replenished with a seasonable stock of goods, selected with especial care to the wants of his numerous friends and customers, to which attention is respectfully called. It should not be overlooked that he does not keep Liguors in his store; therefore the most fastidious need never fear being annoyed. All praise to him for this worthy determination.

B. J. SINGLETON—Has just received in store another fresh stock of goods, to which attention is invited. We know that his prices are very moderate, having made the trial, and therefore speak from experience. Call on him and be convinced.

There are agents all over the South, urging negroes to emigrate to Mississippi and other States, and other countries, and many are going. This is because our farmers are not exerting themselves to retain them as laborers. We cannot doubt, but that every one, who leaves is an injury to the country. It is best to use all fair and legal means to make the blacks contented, and encourage them to make another effort, and perhaps propitious seasons and hard work will be profitable to themselves and their employers.—Abbeville Banner.

The Tuskegee (Ala.) News cautions its readers against inducements recently held out to them to remove to Texas. Men of good judgment have just returned from that State, and state that the crops reported in that quarter are confined to a few farms.

MATHEMATICAL.—All the folks who ain't married, and are big enough to stand up to the (h)alter, are getting married in Augusta. It is the best thing we know of for the coming generation. So sayeth the Atlanta New Era.

COMMUNICATED.

To Gen. H. H. Kinard—Dear Sir—We have been informed that you are the acting Sheriff of Newberry, and as it is expected the Courts will be open at the meeting of the next Legislature, it is the wish of many persons that you offer yourself as a candidate for Sheriff at ensuing election in January next. Having been tried in that capacity, and no man ever having given more satisfaction, it is earnestly hoped that you will signify your acceptance of a nomination. Your qualification as an auctioneer, also, particularly make it the duty of all to sustain you should you run. Property sold in your hands will not suffer depreciation. In conclusion we beg you as the fitting man for the occasion to declare yourself at once, and we will work for you. MANY FRIENDS.

Owing to great misfortunes, and at the urgent solicitations of many persons, and the above call, I have been induced to declare myself a candidate for Sheriff at the election to take place on Tuesday, the 1st day of January next.

If the people of Newberry District will again put confidence in me, and elect me Sheriff, their confidence shall not be abused. For I shall discharge the duty with credit to myself and honor to the office. H. H. KINARD. Nov. 27th 1866.

To the Ladies of Newberry District. I have been requested, by the agent of the upper part of South Carolina, to act as agent for Newberry District for the Holywood Bazaar, to be held in Richmond, Va., in February next, for the purpose of raising a fund to be appropriated to the care of the graves of the dead Confederate soldiers, buried in Virginia.

Many of our Carolina volunteers lie buried in this State of battle fields, and I take this means of soliciting from the ladies of Newberry contributions for the bazaar.

Believing that no appeal is necessary, I ask that all who are disposed to contribute articles of handiwork or money will have them, by the 29th January next, at either of the following places in Newberry: The Book Store of Messrs. Duffie & Chapman. The Store of Messrs. Wright & Coppock. The Store of Mr. R. Stewart and Dr. S. Pope. The Drug Store of Mr. Jno. W. Grierson. The Store of Messrs. M. Barre & Son. The Store of Messrs. Lovelace & Wheeler.

Respectfully, LAURA E. NANCE.

THE RIGHT SENTIMENT.—We do not pretend to speak for all the Southern people—some there are whose hearts may be full of cowardice for all we know—but for ourselves, and many whom we have seen tried in the fiery ordeal of battle, we can say that they, and we, would prefer to dangle at the rope's end, rather than ask for pardon, and thereby acknowledge the guilt of treason. We acknowledge no such guilt. In the forum of conscience, we are acquitted of that crime, may, our action is not only approved there, but we are proud that it was our glorious privilege to have assisted in the battle for our liberties and our homes.—Wilmington Dispatch.

FIRE ENGINES.—Charleston has five new steam fire engines. Prudence and sound judgment dictate the use of all appliances of this sort. The engines super-seeded by these new steam ones could be bought at a discount. Every village should have a fire engine. The importance of the subject in every town the size of Laurens, would warrant the purchasing a steam fire engine. With no appliances of reservoir for holding water, the new steam engine would suit us best. What say our "city fathers?" [Laurensville Herald.]

DISTRIBUTIONS.—We would call attention to the opinion of one of the leading papers of Canada on this subject: Most of our readers have no doubt read some of the numerous advertisements of Gift Enterprises, Gift Concerts, &c., which appear from time to time in the public prints, offering most tempting bargains to those who will patronize them. To most of these are either of humbugs. But there are a few respectable firms who do business in this manner, and they do it as a means of increasing their wholesale business, and not to make money. From such firms, it is true, handsome articles are procured and sold at very small sum, and what is more important, no one is ever cheated. Every person gets good value for his dollar; because as we have stated, it is intended to act as an advertisement to increase their ordinary business. We have seen numbers of prizes sent out in this way by Sherman, Watson & Company, of Nassau Street, N. Y., and there is no doubt that some of the articles are really good. But there are many who, while we have not seen or heard of a single article which was not worth the dollar which it cost. But this is only one of the exceptions of this rule, for as a general thing the parties engaged in this business are not swindlers. (Saturday Reader, Montreal, C. E., Jan. 12, 1865.)
