of a remarkable case: In 1859 a British soldier, while bearing a dispatch from one magistrate to another in the Kingdom of Oude, passed an unfrequent ravine, where he saw a pack of wolves, and with them a human being, evidently one of their company. Immediately turning back he reported the circumstance to the magistrate for whom he was traveling. The latter forthwith mustered a number of Coolies and went to the place. The pack of wolves fled a short distance and sought refuge in a sort of den or cave. Beginning to dig, the party soon discovered the feet of the wild man and drawing him forth, succeeded in binding and carrying him to the town. Dr. Butler has seen him often since, and says he is evidently a man, and at the time of his capture apparently about twenty-four years of age.

The captured creature at first violently resisted the attempt to put clothing upon him, but after a while ceased to tear the garment. He is now kept by a gentleman in the city of Thabje-Vampore, some eight hundred miles west of Calcutta. When first taken he was unwilling to eat anything but raw meat, and has never been able to speak or make any approximation to a knowledge of the alphabet. If any one looks earnestly or sharply at him, he expresses his annoyance by a half uttered grunt immediately turning away and settling upon his haunches in a corner of the room, or lies down. He eats his food off the ground; and although evidently a human being is in habits a wolf, with the instincts of that beast.

This is certainly an anomalous fact in natural history, although it is said that four singular instances are known to have occurred in India, presenting the same general facts. Wolves abound in India, where the inhabitants live wholly in the cities and villages; and at the approach of night all persons emplowed in the open country retire to these clusters of houses or huts, and these roving and ferocious animals find free range. It frequently hap pens that a wolf steals into a house and carries off a child. So frequently is this the case that in the schedules furnished for recording the mortality in each place, one column is headed, "Carried off by

Dr. Butler's theory of this strange case is that a she-wolf probably carried off this person Richmond & Danville R. R. when he was an infant, but that before she devoured her prey, the child instinctivel; searched for food. Beginning to draw its nourishment, it awoke in the wolf the maternal instinct which led to the Leave Danville daily-except Sundaypreservation of its life, and thus the boy lived and grew.

Throw away your false frizzes, your switches, your wig—
Destructive of comfort, and not worth a fig:
Come aged, come youthful, come ugly and fair,
And rejoice in your own luxuriant hair.

REPARATOR CAPILLI For restoring hair upon bald heads (from whatever cause it may have fallen out) and forcing a growth of hair upon the face, it has no equal. It will force the beard to grow upon the smoothest face in from five to eight weeks, or hair upon bald heads in from two to three months. A few ignorant practitioners have asserted that there is nothing that will force or hasten the growth of the hair or beard. Their assertions are false, as thousands of living witnesses (from their own expérience) can bear witness. But many will say, how are we to distinguish the gen-uine from the spurious? It certainly is diffi-cult, as nine-tenths of the different Preparations advertised for the hair and beard are entirely worthless, and you may have already thrown away large amounts in their pur-chase. To such we would say, try the Reparator Cappilli; it will cost you nothing unless it fully comes up to our representations. If your Daggist does not keep it, send us one dollar and we will forward it, postpaid together with a receipt for the money, which will be returned you on application, providing entire satisfaction is not given. The washing for a family of twenty persons may be completed before breakfast, the clothes out to dry, the house in good order and comfortable for the day, and the family saved from washing-day annoyances. Who would not wish to have such comforts? This Compound is rapidly taking the place of all soaps, wherever introduced. It is a same amount of washing as with the best

of soaps.
