**McIntire's Improved Cotton Tie. BEST TIE IN USE.**  
The above cut represents McIntire's Improved Cotton Tie, which we have no hesitation in presenting to the public as the

It has been thoroughly tested in different sections of the South, and its superior merits freely acknowledged by all who have tried it. In fact its popularity has become so great as to warrant us in the assertion that it is destined to become the universal favorite. This Tie combines ease and simplicity of adjustment with undoubted strength and durability. We particularly invite the attention of Plan Tie we does not require any pins to be slipped in, pulled out or to fall out; and is used without the troublesome operation of bending or looping the Band; The manner in which it works is easily understood from the cut. Each Tie is complete in itself—the Buckle being riveted to the Band; and no part can be lost. The simple process of running the Band into the Buckle and letting it go at the proper place, is all that is necessary—the fastening being perfected the moment the pressure of the cotton is brought to bear on the Bands. The Buckle is strong, compact and small, presenting an even surface, has no rough edges or protruding points, consequently sinks even with the cotton and obviates the great objection to other Ties, which are "ratched apart when the buckles of different bales get caught in handling or transportation, and especially when bales are piled on each other.

**TO THE PUBLIC. FINAL NOTICE!**

Last Spring I placed my notes and accounts in the hands of Messrs. Jones and Jones for collection. But when those owing me, came and promised faithfully to pay me if I would not sue them, but wait till Fall, I did so trusting to the fulfillment of that promise. I waited till Fall. No one came forward. I did not even sue them, hoping I would not have to do so.  
This is to give notice that I will not let another term of Court pass, but if they are not paid, every note and account will be put in suit, as I think I have waited long enough.
