THIS BRANCH OFFICE offers all inducements for Life Insurance of a perfect Home Office, with these advantages: The Capital is furnished, the expense of commencing operations has been incurred, the success, beyond peradventure, is established, and the shole Capital and Assets of the Home Company stand committed to sustain it. The entire management of the Piedmont is in the hands of Southern men, and its aim is to sustain Southern interests. It further pledges itself to invest all funds accruing within the State, under the direction of the gentlemen named above, constituting the South Carolina Board of Directors, in whose integrity you must have entire cenfidence.

The Piedmont claims to be equal in the privileges and benefits granted its patrons, to any other Company, surpassed by none, and superior to many, and only requests parties wishing to insure not to do so until they have examined the merits of this established Southern Company. The first Dividend of the Piedmont Life Insurance Company paid on Life Policics was FORTY PER CENT, which proves the economy of its management and its careful selec-

#### To Every Farmer and Planter in the two Carolinas.

THE CAROLINA FARMER Was established in November 1868, as the organ of the farmers and planters of North and South Carolina. That it has thus far fulfilled the expec-tations of its friends is abundantly evidenced by the general and increasing favor with which it has been received. But the success stready attained, though gratifying is not all that they hope for and confidently an-ticipate. It is especially desirable to make the Carolina Farmer the medium through which the views of the most intelligent practical farmers of the two Carolinas may be exchanged. The advantages of such a medium are so obvious that it is not necessary to enlarge on them. Your own intelligence will suggest all that should be said on

You must concede that our section of country needs an organ of this kind. We have already suffered so much from ignorance and unskilfulness in the cultivation of the soil, that it has become a duty on the part of our enlightened agriculturists to make a general and quited effort for the correction of the evil. Poverty and bankruptcy have invaded the homes of our penple to a sad extent, and these evils can only be averted by improving our system of Agricolture. All wealth originates in the soil, and the growth of towns and cities without a corresponding increase in agriculture, is factitious and unprofitable. We want a healthy and flourishing agriculture as the basis of our industrial system -When we obtain this, commerce will flourish, capital be accumulated, manufactures established, railroad built wherever needed, and prosperity and contentment prevail .-As an intelligent and patriotic citizen ask yourself whether you cannot do something towards the accomplishment of an object so noble? You may possibly think that your individual efforts in this di ection can accomplish nothing worthy of note, but remember how great is the power of a free press in spreading truth and correcting error! Moreover there is a common bond of sympathy consecting those of like pursuits, and a word fitty spoken will often touch many on the right cord, awaken in them thought, and stir up others to give publicity to thoughts valuable and instructive."

The subscribers therefore appeal to you as a patriot and an intelligent farmer to aid them with your pen in building up the agriculture of our section. Give to your brother agriculturists, through the columns of the Carolina Farmer, the benefits of your observations and reflections. So doing you will contribute to the elevation of the noble pursuit of agriculture, the prosperity of your country and the happiness of its peo-

Farmers, write for your paper, and thus enable us to make the Carolina Farmer a fournal suited to the agriculture of our section. Communications on all practical subjects pertaining to the farm are earnestly solicited. And contributors may rely on the prompt publication of their articles, as the proprietor has determined, on the first ther into a Weekly Agricultural and Family Journal, and will thus be enabled to publish everything in season. No advance will be made in the present subscription price.

Ed. and Pro. Carolina Farmer. ROBTE E BRIAN Associate Editor, Wilmington, N. C.
