

OMINOUS.—Under the above caption, the Norfolk (Va.) Old Dominion has the following:

"Southern ladies do not talk to anything like the same extent as in former years. What does it mean? Are we wrong in classing this phenomenon among the signs of the times? We believe it is the result of a mysterious solemnity that has in the last few years of trial and mighty events crept over the world. Levity is not as wide-spread. Men and women look now more in earnest, work harder, do more towards carrying out the end of their being. We may be wrong; but such are our convictions, in spite of the wickedness abroad in the land."

Constantinople is preparing magnificent fetes to celebrate the circumcision of Prince Izzeddin Effendi, the eldest son of the Sultan. Ten thousand boys, who are to be circumcised the same day, will all receive handsome presents, and the Pasha will keep open house for a whole week, when all who choose to come will be entertained at his table in royal style. There will also be illuminations, fireworks and other public rejoicings every evening on a scale of splendor that will recall the gorgeous scenes of the "Arabian Nights" tales.

In the will of the late Wade Bolton, of Memphis, the following appears: "I give and bequeath the widow and children of General Thomas Jonathan Jackson, known as Stonewall Jackson, who fell at the battle of Chancellorsville, Virginia, \$10,000, as history tells me his widow's furniture was sold after his death for debt."

Fanny Fern says, "The silliest man who ever lived has always known enough, when he said his prayers, to thank God that he wasn't born a woman."

REASONS WHY EVERY ONE SHOULD INSURE IN THE EQUALITY LIFE INSURANCE COMPANY OF RICHMOND, VIRGINIA.

1st. It is more LIBERAL to the INSURERS than any other company, and will eventually become PURELY MUTUAL and belong to the INSURERS.

2d. It circulates its money amongst its patrons, who are the insurers. Consequently they are continually getting the benefit of the rapid accumulations of the Company, the money being invested by the Board of Directors amongst the insurers. Therefore the insurers are building up an institution peculiarly their own and conducted for their benefit.

3d. The loans of this company are as liberal as other companies who declare dividends at the end of the second, third and fourth years, but this Company at the end of the first and every year. Thereby the insurer saves several years' interest on his loans by insuring in this Company, and he never loses his money if he pays up for ONE WHOLE YEAR, whereas, in other companies, he has to remain an insurer for several years, or he loses all the money he has paid.

GROVER & BAKER'S SEWING MACHINES

Were awarded the very Highest Prize, The Imperial Cross of the Legion of Honor, WAS CONFERRED UPON REPRESENTATIVE at the EXPOSITION UNIVERSELLE, PARIS, 1867.

Also were awarded the Highest Premiums at the State Fairs of New York, Vermont, New Jersey, Pennsylvania, Ohio, Indiana, Michigan, Wisconsin, Iowa, Kentucky, Tennessee, Missouri, Alabama, Mississippi, Virginia, North Carolina, California, Oregon, &c.

At the Fairs of the American Institute, Franklin Institute, Maryland Institute, Mass. Mechanics' Association, Penn. Mechanics' Institute, St. Louis Agricultural and Mechanical Association.

First Prizes have also been awarded these Machines at the exhibitions of London, Paris, Dublin, Liez, Besancon, Bayonne, St. Diemer, Chelms and they have been furnished, by special command to the

Empress of France, Empress of Austria, Empress of Russia, Empress of Brazil, Queen of Spain, and Queen of Bavaria.

THE GROVER & BAKER Elastic-Stitch Sewing Machines

ARE SUPERIOR TO ALL OTHERS FOR THE FOLLOWING REASONS:

1. They sew with two threads direct from the spool, and require no re-winding.

2. They are more easily understood and used, and less liable to derangement than other machines.

3. They are capable of executing perfectly, without change of adjustment, a much greater variety of work than other machines.

4. The stitch made by these machines is much more firm, elastic, and durable, especially upon articles which require to be washed and ironed, than any other stitch.

5. This stitch, owing to the manner in which the under thread is brought in, is much the most plump and beautiful in use, and retains its plumpness and beauty even upon articles frequently washed and ironed until they are worn out.

6. The structure of the seam is such that, though it be cut or broken at intervals of only a few stitches, it will weather open, run no more, but remains firm and durable.

7. Unlike other machines, these fasten both ends of the seam by their own operation.

8. With these machines, while silk is used upon the right or faced side of the seam, cotton may be used upon the other side, without lessening the strength or durability of the seam. This can be done on no other machine, and is a great saving upon all articles stitched or repaired.

9. These machines, in addition to their superior merits as instruments for sewing, by a change of adjustment, easily learned and practiced, execute the most beautiful and permanent embroidery and ornamental work.
