Brave and True.

We commend the following from the Richmond Enquirer and Examiner :

"We are afraid there are some who will make the existence of the Democratic party an apology for joining the Republicans. We tell them it will be a great political blunder; we are going to carry the State like a tornado-like Kentucky, where the last majority was about 100,000; like Maryland; like Georgia; like Tennessee. And we advise those who are going to act with us to put themselves in motion, and avoid the fate of all Trimmers,"

Northern vs. Scuthern Text Books.

The text book committee of the Legislature, composed of Gov. Scott, Tomlinson and Jillson, white, and Maxwell and Smalls, colored, at a meeting last week, determined to ignore our enterprising publishers, Messrs. Duffie & Chapman, and their valuable series of text books, and gave the preference to Northern books. No one need be surprised at such a decision however, for really it would be matter for surprise had the result been the reverse. The books of these gentlemen are all that intelligent and unprejudiced minds need require, and of course did not meet the views of a by brid committee. Well if the Committee will fill up the public schools with the books selected, our private schools will at least encourage home publications, and we beg that this be kept in mind, as the only means of not being entirely overwhelmed with the ideas of the party of moral progress.

This immaculate carpet bagger has come to grief, and the grief of his friends is no less great than his own. The resolution of expulsion has been

Naval Academy appointments contrary to law, and for a pecuniary consideration, and that he was unworthy of a seat in the House.

Whittemore states that he will appeal to his constituents for a re-election.

And of course he will not be chosen the second time, now that his "works" are known. His works on the coast and all through the low country of this State, in which the colored people were the victims in every instance, were enough to damn him without this last. He had best hang up his carpet bag and accept the situation.

The last legislative act of the immaculate cadet-ship seller was to introduce a bill appropriating \$50,000 for improving the navigation of Red River, Caddo Lake and Big Cypress bayou, in Louisiana. How much of this did he expect to feather his nest with.

Save us from our Friends.

The Phonix will excuse us for bor rowing the above heading. It is quite appropriate and we agree with him that there is danger, that sinking the Democracy in a sort of hybrid organization to please everybody, will satisfy none and work harm. It suggests briefly : 1. It would take the soul out of the

anti radical movement in the State. 2. It would disgust the very bone and sinew of the anti-radicalists, who are earnest, working Democrats.

3. It would leave the radical Countie in the hands of radicalism, and place the Democratic Counties in the hands of fluence, because men who have no de

talk, and the blowing of horns is distracting. All these suggestions of platforms, and opinions for and against many fevers to the body of Democracy which now needs to foster its strength do not pretend to be one of the Sir Oracles, or mouth pieces of the great party of right principles, and would not hez ard an expression of what kind of plat that it would be vastly better if there were fewer of them. This multiplicity of diversities disintegrates and divides instead of drawing together and uniting, and if ever there was a period in which the party should unite to rescue the country from the unholy hands now desecrating its altars, now is that period .-The radical party is worse off to-day with all the vileness, frauds and corruptions which cover it, than the Democratic party in its oppressed condition. YORK CALLS FOR A CONVENTION - After ublishing the article suggesting a Convention of the anti-radicalists of the State, we find the Yorkville Enquirer of the Board of Commissioners, for the making a similar suggestion. We heartlly endorse the proposition, and regard it as essential. The Enquirer says:

A Convention.—The question of what should be done in opposition to radicalism this summer has been rather freely liscussed, of late, by a portion of the State press. The discussion appears to tim at securing concert of action, and in order to give it some definite result, we suggest that a convention be held in Columbia, of delegates from all the Coun ties, unfettered by instructions and empowered to decide upon the policy to be adopted. A DESIDERATUM. -Since the world began, or rather since the location of our town (an unfortunate one by the way) by these old chaps who tradition says could get no farther than the spring in the hollow, because it was a good place to cool their whiskey in, our citizens have been unfortunate in the selection of a barber. We are rejoiced to state that the town is now blessed with a professor of the art tonsorial, in the person of Ark. THE WEATHER. - For about a fortnight we have been experiencing such alternations of weather as are embraced in the gamut runs ning from bad toworse. All kinds of winds, high, low, fence-upsetting, house-shaking, nerve startling, biting cold, and, and, the very de-1 let loose-ing; and rain, and hail, sleet and snow, and a big fall of the latter for this section, or perhaps more properly for this time, for in the "good old daze" when the atmosphere was cool, and no fifteenth amendments and carpet-bags of reconstruction helped to excite an unnatural heat, we used to have good old snows, and the boys could take a rabbit hunt with prospect of to be held in Charleston in May. success. We trust this fall of snow, about 3 inches greater than we have had since Lincolu's proc., is a prognostication of a fall in the radical temperature, and that a greater fall will follow in the not far future.

MORE MUD .- Never did town show as much mud on its side walks as did this dear Newberry town last week. Main street on one side was a sheet, some of the side streets matter of regret that some of this mud was hauled at considerable expense from its native bed, and spread out with indefatigable skill and ardor, while in a semi-soft condition, in the vain hope of its be coming macadamized, and to give the side alas, the first shower reduced it to mud; more of the pulp was then frantically dug, hauled by that well known club foot mule, and spread around generally, and the consequence was the next shower gave more mud. We respectfully ask for one more trial. Let whitey be harnessed and set to work the first fair weather to haul up more of the mixture and let it be spread carefully, and on the most public thoroughfares, and pulverized and packed, and then if the next rain makes mud of it we hope the scheme will be abandoned And we trust that the fallure will not erush out "that spirit of enterprise whose native and home, by angel hands to valor given."

THE SHOW AND WHY IT DID NOT SHOW AND HOW IT AFTERWARDS DID SHOW .-The most of our town readers and some in the country, are aware of the reasons why Prof. Reynolds did not spread his canvass in the incorporate limits of this town. Some are not, however. By resolution of council it was determined to put a tax of \$100 on shows, coming under the category of circusses. This authorize County Commissioners of each show was the first that happened to meet and every County to purchase a farm, to this enactment, it felt it heavily, and it was unfortunate that it fell on a concern so little able to meet it, but so it was; and as were the laws of the Medes and Persians, so was this resolution of the Hon, Intendant and Wardens-they could not go back. And they were right. We are glad that the license o the card of the above named gentlemen, for circusses has been put to this amount, and if it have the effect of turning aside from filthy institutious, of which the country is flooded, great good will be done. This is our opinion in regard to the course of the his store during the session of Court a place council. The professor did exhibit, however, at th udience, and we are told by those who went and would have gone had the distance been ten times what it was, that the exhibition was better than might have been expected, and quite diversified, but that the elephant looked starved and hungry, and hat some of its admirers blamed Paysinger and his four Wardons for it, because had they allowed the afternoon exhibition in town, Mr. Elephant would have had his dinner, There were those again who said that the county commissioner was really the blameable party, that his subsequent arrest of Reynolds for attempting to show without county license, when that license was already in his breeches pocket was a breach of good man ners, a lack of sense and a positive wickedness, and resulted in great inconvenience to both men and animals and even deprived them of an opportunity to get supper. To use a domely comparison the commissioner "crowded the monkey" in a foolish and uncharita-Lie manner, and it was a relief to our pent up and agonized feelings to realize at the last that the Professor had taken the precaus tion to secure a county license, and in spite

Another Grand Swindle.-Some one, intent on opening another grand scheme for robbing the tax-payer, and placing thousands of dollars at the command, and in the pockets, of the authors of the villainous measure, has introduced a bill in the Legislature entitled "A Bill to be cultivated under their supervision and direction, as a model farm of their respective Counties." A model farm indeed! A way-side

home for trifling Carpet Baggers and lazy negroes—all to be fed and clothed at the expense of the tax payer. To buy thirty of these "model farms," stock them, furnish wagons, implements, &c., &c. would cost the people of the State at the least three hundred thousand dollars Can the people stand up under this additional and altogether unnecessary burden? THE IRRESISTIBLE ARGUMENT.-Women ho want to vote will be interested to know that the following speech, de-livered in the Wyoming Legislature, was the clincher that caused the passage of the act which accorded them the right to vote. A member rose and said:-Damn it, if you are going to let the niggers and pigiails vote, we will ring in the women too." And they were im-

mediately "rung in." After admission, Mississippi will be added to the Department of Louisana, and will form a part of the Military Division of the South.

assisted by Rev. A. R. Rude, Prof. I. A. HAWKINS, of Greenville, and Mrs. Elza-BETH McMorr Es, of Newberry. On the same day, at the residence of the bride's parents, by Rev. J. Hawkins, assisted by Rev. H. Strong, Mr. James H. Aulland Miss Addie S. Piester, all of Newberry.

The unusual accompaniment of two elegant cakes, one from the fair bride, and one from the groom, and both large, rich and beautiful, in this happy instance is our fes licitous record, and one which we make with profound obelsance. Only the most skeptical unbeliever in the happiness; of wedded life can doubt the life of bliss in store for this couple. They have made the prottlest start known in the history of matrimony in paying such a complimentary tribute to the editors. Long may they live and their lives be crowned with love and the approving smiles of friends.

Intellectual superiority occasions little difference in manners or conduct. Nature guarantees a general similarity of action ons and fancies, whether more or less within the province of human control, and an identity of which is not essential to the perpose of existence, admit of an indefinite variety. PAIN KILLER.

than occupant of our bouse for over two cars, and a portion of the time it has been the only medicine under our roof. Hard y ever do I have my chil hen complain of be-ing sick, without having them ask in the same sentence for Pain Killer. For several years before I became a quairted with the Pain Killer, I had suffered a ted with the Pain Killer, I had suffered a creat deal from an affection in my throat, thought by some physicians to be Bronchitls, by others to be what is called Ministers' Sore Throat. At one time it was so severe that I was obliged to give up preaching.—Within a few months after I had become acquainted with the Pain Killer, I had ansalms attack from that discovered other attack from that distressing complaint. I tried my new-found medicine, and, to my astonishment and delight, it produced a won-

relief. About one year since, my wife be-came subject to severe suffering from Rheus matism: our resort, as usual, was to the Pain Killer, which would always relieve her. Thave not time now to say more, as I could with a hearty good will, and always have done, in praise of the Pain Kitler. If this hastily-written letter, in commendation of Perry Davis' valuation medicine, will be of any service, you are at liberty to do with it as you needs.

When the air is heavily laden with chilling vapors, as it often is at this season of the year, the digestion should be an object of peculiar care. If it is weak and languid, the whole physical stre are will be oner rated. If it is vigorous, the entire organization will be strong to resist the untoward and depressing influence of a damp and vitiated atmosphere. A pure and powerful tonic is therefore especially needed as safeguard against the diseases most common in the spring, and Hostetter's Stomach Bit ters being the most wholesome and poten medicine of the class at present known, a course of it is particularly advisable at this period of the year. The stomach will thereby be toned and strengthened, the liver and bowe's regulated, the nervous system braced up, and nature put in a state of ac-tive defence against, the miasma which superinduces intermittent and remittent evers, rheumatism, nervous debility, head ache, hypochondria and other complaints which are apt to assail the unioned and un organizations. Safe! sure! reliable! is Wineman's

ticle from Prof. R. S. Newton, M. D., Presi dent of the E Medi-College, city of New York, that speaks in high terms of its cura tive properties, and gives a special recommendation of Koskoo to the practitioners of medicine. This is, we believe, the first instance where such medicines have been officially endorsed by the Faculty of any of the medical colleges, and reflect great credit upon the skill of D. Lawrence its compounder, and also puts "Koskoo" in the van of all other medicines of the present day. Feb. 23, 8—tf.
