THE REPUBLIC OF LIBERIA. - The Republic of Liberia is from late reports, in an exceedingly bad way. The people have rebelled against some of the new President's appointments, and threaten them with assassination if they assume the cares and duties of office. While this pleasant state of affairs exists within the Republic, His Majesty of Ashantee makes an occasional raid from without, and in the last, succeeded in capturing and carrying off a missionary, for whom he demands ransom. Some of the afflictin the shape of "a pair of scissors and a piece of gum coral," and although it is certainly valuing a missionary very cheap, it is to be hoped the equivalent will be accepted. Whether it is or not, it will at least act as a damper on African missionary enthusiasm. No man can entertain either ordinary respect or future anxiety for a people who estimate a in the way of humility and self-depreciation. Liberia now promises to soon prove another shinning example of the incapacity of the negro race for selfgovernment, when left to its own resources.

Dr. LAWRENCE—Dear Sir: Your Koskoo haworked wonders in my family. My daughter has been a sufferer from Scrofula since childhood. She lost thirty-one pieces of bone from her ankle, several from her arm, bosides having ulceis in several parts of the body. Whilst in this condition she commenced taking your Koskoo—tacted like a charm on her; under its use the ulcers gradually healed, and her general health greatly improved. It certainly saved her much suffering, and perhaps her life. I regard Koskoo a specific for all rerofulous affections. Your Koskoo also cured my wife of dyspensia, from which she suffered greatly. She is now in better health than she has been in five years.

With the highest regards.

I am gratefully yours, &c. Koskoo is endorsed by the best physicians everywhere. Read the following from Dr. Tillery, a successful practitioner of many years standing in the Old North State:
